Hamilton,2019-05-07 This book investigates the ways in which context shapes how cognitive challenges and strengths are
navigated and how these actions impact the self esteem of individuals with dementia and their conversational partners The
author examines both the language used and face maintenance in everyday social interaction through the lens of epistemic
discourse analysis In doing so this work reveals how changes in cognition may impact the faces of these individuals leading
some to feel ashamed anxious or angry others to feel patronized infantilized or overly dependent and still others to feel
threatened in both ways It further examines how discursive choices made by healthy interactional partners can minimize or
exacerbate these feelings This path breaking work will provide important insights for students and scholars of
sociolinguistics applied linguistics medical anthropology and health communication
