The Book of Promethea Häl_ne Cixous,1991-01-01 In writing Le Livre de Promethea H_l_ne Cixous set for herself the task of bridging the immeasurable distance between love and language She describes a love between two women in its totality experienced as both a physical presence and a sense of infinity The result is a stunning example of

Pecriture feminine that won kudos when published in France in 1983 Its translation into English by Betsy Wing will extend the influence of a writer already famous for her novels and contributions to feminist theory In her introduction Betsy Wing notes the contemporary emphasis on fictions of presence Cixous in *The Book of Promethea* works to repair the separation between fiction and presence trying to chronicle a very present love without destroying it in the writing

The Satisfied Life Jane Ellen McAvoy, 2009-07-01 Christianity centers on the life and death of Jesus as Christ Often Christians focus on the importance of Christ s Sacrifice as the means of human salvation and the faithful are encouraged to imitate this suffering through self sacrifice and self denial More than a few Christians particularly women have found such encouragement to self sacrifice to be a means for continuing oppression men over women colonizers over the colonized the powerful over the powerless In *The Satisfied Life* Jane McAvoy constructs a feminist theology of atonement or satisfaction for sin that draws on the insights of six medieval women mystics Julian of Norwich Mechthild of Magdeburg Hildegard of Bingen Margery Kempe Hadewijch of Brabant and Catherine of Siena These Christian writers reveal alternatives to a theology of oppression Salvation for them means experiencing the death and resurrection of Christ not as life denying but as a life affirming celebration of God s love for us through the sustaining love of Jesus

Suffering and Bioethics Ronald M. Green, Nathan J. Palpant, 2014-08-01 Long before it cured disease medicine aimed to relieve suffering but despite that precedence the relief of suffering often takes a back seat in today s biomedical research and treatment Modern bioethics too has been slow to come to terms with suffering Attention to ethical quandaries has sometimes displaced attention to the experience of patients This book seeks to place suffering at the center of bioethical thinking once again Among the questions its contributors explore are What is the meaning of suffering How does it relate to pain If there can be pain without suffering can there be suffering without pain Does suffering require advanced cognitive abilities Can animals suffer Many believe that we have strong obligations to relieve or minimize suffering what are the limits of these obligations Does the relief of suffering justify the termination of a patient s life as proponents of euthanasia maintain What is the bearing of suffering on the cherished bioethical principle of autonomy Can suffering impair a patient s ability to make reasoned choices To what extent must the encounter with suffering be an important component of medical education Do religious traditions ever move from efforts to explain and relieve suffering to positions that justify and promote it The aim of this book is to undertake a new foray into this foreign territory of suffering With a foreword by the distinguished bioethicist Daniel Callahan its twenty two chapters authored by leading scholars in science and bioethics are organized so as to examine suffering in its biological psychological clinical religious and ethical dimensions
