## **Maker Craftsman:**

*The Craftsman* Richard Sennett,2009-02-05 Why do people work hard and take pride in what they do This book a philosophically minded enquiry into practical activity of many different kinds past and present is about what happens when people try to do a good job It asks us to think about the true meaning of skill in the skills society and argues that pure competition is a poor way to achieve quality work Sennett suggests instead that there is a craftsman in every human being which can sometimes be enormously motivating and inspiring and can also in other circumstances make individuals obsessive and frustrated The Craftsman shows how history has drawn fault lines between craftsman and artist maker and user technique and expression practice and theory and that individuals pride in their work as well as modern society in general suffers from these historical divisions But the past lives of crafts and craftsmen show us ways of working using tools acquiring skills thinking about materials which provide rewarding alternative ways for people to utilise their talents We need to recognise this if motivations are to be understood and lives made as fulfilling as possible

*A Craftsman's Legacy* Eric Gorges,Jon Sternfeld,2019-05-07 A book for makers for seekers of all kinds an exhilarating look into the heart and soul of artisans and how their collective wisdom can inspire us all Despite our technological advances we're busier than ever our lives more frazzled That's why the handmade object created with care and detail embodying a history and a tradition is enormously powerful It can cut through so much and speak in ways that we don't often hear or that we've forgotten Eric Gorges from *A Craftsman's Legacy* In this joyful celebration of skilled craftsmen Eric Gorges a corporate refugee turned metal shaper taps into a growing hunger to get back to what's real Through visits with fellow artisans calligraphers potters stone carvers glassblowers engravers woodworkers and more many of whom he's profiled for his popular television program Gorges identifies values that are useful for all of us taking time to slow down and enjoy the process embracing failure knowing when to stop and when to push through and accepting that perfection is an illusion Most of all *A Craftsman's Legacy* shows how all of us can embrace a more creative and authentic life and learn to focus on doing what we love

*Deification in Classical Greek Philosophy and the Bible* James Bernard Murphy,2024-06-27 The goal of human life according to Plato Aristotle and the Bible is to become as much like god as possible This book written in vivid and lucid English illuminates

Greek philosophy by showing how it grows out of ancient Greek religion and how it compares to biblical religion

Risa Divetri will soon leave home to study the family craft creating and enchanting glass objects But when Cassaforte's age old magic unravels and corruption threatens their kingdom Risa's untapped powers rise to the surface leading her toward her true fate

*Musical Instrument Makers of New York* Nancy Groce,1991 The history of any skilled urban trade is ultimately tied to the growth and development of the city in which it is located From its humble eighteenth century beginnings instrument making grew to be one of New York City's most sizable and important trades By the 1840s the city

was the largest producer of instruments in the Western Hemisphere and in the decades that followed designs and innovations pioneered by New York artisans influenced and inspired instrument makers throughout the world. Although many of these instruments survive in American museums there existed no comprehensive guide to their makers. Nancy Groce's biographical dictionary chronicles all of these master craftsmen in colorful detail from the obscure work of Geoffry Stafford in 1691 to the zenith of the 1890s and on to the Great Depression of the 1930s.
