Phillips, 2012-03-29 Bringing together scholars from a diverse range of disciplines *The City as Target* provides a sustained and critical response to the relationship between the concept of targeting in its many forms and notions of understanding imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight both the power of *The Global City* and the current vulnerability and fragility of urban culture exploring the city as a recipient and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies **The American City** Arthur Hastings Grant, Harold S. Nightingale, 2020-07-03 An insider's entertainingly written brilliantly insightful account of the Iran hostage rescue attempt and how it led to today's special operations forces General Stanley McChrystal Ret Phoenix Rising recounts the paradoxical birth of SOF through the prism of Operation Eagle Claw the failed attempt to rescue fifty two American hostages in the U S Embassy in Tehran When terrorists captured the embassy on November 4 1979 the Joint Chiefs of Staff quickly realized that the United States lacked the military capability to launch a rescue There was no precedent for the mission a mission that came with extraordinary restrictions and required a unique force to take it on With no existent command structure or budget this force would have to be built from scratch in utmost secrecy and draw on every branch of the U S military Keith Nightingale then a major was Deputy Operations Officer and the junior member of Joint Task Force Eagle Claw commanded by James Vaught Based on Nightingale's detailed diary *Phoenix Rising* vividly describes the

personalities involved the issues faced and the actions taken from the operation's conception to its hair raising launch and execution His historically significant post analysis of Eagle Claw gives unparalleled insight into how a dedicated group of people from the Chief of Staff of the Army to lower ranking personnel subjugated personal ambition to grow the forces necessary to address asymmetrical warfare and the emerging terrorist threat a threat the majority of uniformed leadership and their political masters denied in 1979 The Special Operations capability of the United States today is the proof of their success Nightingale's fascinating account of the struggles to stand up the U S military's special operations capability is worth buying just for his first hand description of the planning behind the effort to rescue the Iran hostages Sean Naylor New York Times bestselling author of *Relentless Strike The Secret History of Joint Special Operations Command* Nightingale is a combat leader who has been there and done that in some of the hardest places on the planet On top of that he's a fine and clear writer Thomas E Ricks 1 New York Times bestselling author of *Fiasco*      **The Review of Economic Statistics** ,1930
