From automation and marketing to sales productivity and decision making AI tools are becoming essential for modern business growth. Best AI Tools for Business in 2026 is a practical easy to understand guide that explains how today's most important AI tools work and how to use them effectively in real business scenarios. This book focuses on application not theory making AI accessible even for readers with no technical background. Inside you'll learn how popular AI platforms such as ChatGPT, Jasper, Canva, AI Zapier, HubSpot, AI Pictory, Notion, AI Microsoft Copilot and many others can be used across different business functions to save time, improve efficiency and scale operations. The book covers AI tools for Market research and business ideas, Content creation and branding, Marketing and advertising, Sales and customer support, E-commerce and product management, Productivity and workflow automation, Finance, HR analytics and decision making. Each AI tool is clearly explained with its purpose, key features, practical business workflows, benefits, pricing insights and expert tips for smarter usage. Written for entrepreneurs, business owners, marketers, freelancers and professionals, this book helps readers use AI tools with confidence and build a strong foundation for the future of business. If you want a clear, structured and actionable guide to understanding and using AI tools in business, this book is designed for you. People-Centered Digital Technology for Ethical and Sustainable Business Practices Castro-González, Sandra, Rey-Ares, Lucía, 2025-09-26 In an era where digital transformation shapes business, prioritizing people-centered digital technology fosters ethical and sustainable practices. This approach emphasizes designing technologies that respect human rights, promote inclusivity and consider environmental and social impacts. By prioritizing the people within digital innovation, organizations can build trust, enhance stakeholder well-being and drive long-term value creation. This shift addresses growing concerns about data privacy, algorithmic bias and digital exclusion while aligning with goals of corporate responsibility and sustainable development. People-Centered Digital Technology for Ethical and Sustainable Business Practices explores the impact of digital technology on sustainable business development. It examines the use of ethical frameworks to improve technological development, promote social welfare, create new business models and enhance human-technology interactions. This book covers topics such as human capital, machine learning and ethics and law and is a useful resource for business owners, engineers, academicians, researchers and data scientists. **The Routledge Handbook of Interpreting, Technology and AI** Elena Davitti, Tomasz Korybski, Sabine Braun, 2025-05-26 This handbook provides a comprehensive overview of the history, development, use and study of the evolving relationship between interpreting and technology, addressing the challenges and opportunities brought by advances in AI and digital tools. Encompassing a variety of methods, systems and devices applied to interpreting as a field of practice as well as a study discipline, this volume presents a synthesis of current thinking on the topic and an understanding of how technology alters, shapes and enables the interpreting task. The handbook examines how interpreting

has evolved through the integration of both purpose built and adapted technologies that support automate or even replace human interpreting tasks and offers insights into their ethical practical and socio economic implications Addressing both signed and spoken language interpreting technologies as well as technologies for language access and media accessibility the book draws together expertise from varied areas of study and illustrates overlapping aspects of research Authored by a range of practicing interpreters and academics from across five continents this is the essential guide to interpreting and technology for both advanced students and researchers of interpreting and professional interpreters
