Mega Strategy:

Can Evangelicals Truly Change the World? William Wagner, Mark Wagner, 2019-09-27 As we look at the growth of the Christian Church in today's world there is reason for both optimism and pessimism. In the developing world there is both an enthusiasm and a real growth while in many parts of the Western world the church seems to be in decline. However, there are some religious groups and movements that are experiencing growth. The Authors of this book attempt to study seven of today's movements to see why some are growing while others are either stagnant or declining. As we plan for the future it is important that we understand the dynamics of growth so as to be able to carry out the Great Commission of the Lord Jesus Christ and that is To make disciples of all nations.

Halfway Up the Mountain Mark Wagner, William Wagner, 2020-12-29 Recently a top Christian leader wrote an article entitled America is in Crisis. What do we do? This theme was very interesting to me thus I read it with great expectations but was sorry to hear once again that the apparent answer to the question was to return to the old methods that we have been using in the past. The world is changing and there are myriads of new possible methods and tools that can be used in the proclamation of the Gospel. We need to seek new answers to the question of What do we do? The title of this book shows both the success of the past but also give us new challenges for the future. Our goal is to complete the great Commission of Jesus Christ and that is to Make disciples of all nations. We have had much success in that at the present time we can say that approximately one third of the world claims some adherence to the Christian Faith. But the job is not yet completed. We are only half way there. In climbing a mountain the start is easy and exciting. We look at the beautiful peaks and can imagine what it will be like when we reach the top of the mountain. Once we have reached the peak we have an unspeakable joy as to our accomplishments. It is only when we are halfway up the mountain that real discouragement sets in. When we are half way towards our ultimate goal we need to get ready for the more difficult part of the task. We have accomplished much but still much needs to be done. There are twelve authors who have contributed to this book. All are experts in one of the ten mountains of culture. The writers of this book are suggesting how we can look at the ten mountains of culture and discover new and creative ways of making the Gospel known to all peoples. This book is intended to both inform the reader of the present situation and to challenge them to think on what we can accomplish when we apply mega thinking to our present situation.

This article will explore the advantages of Mega Strategy books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Mega Strategy books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
