Of those approximately thirty five million will look at online dating sites this year alone. *Internet Dates from Hell* provides the ins and outs of Internet dating from one woman's experiences ranging from funny to scary to downright shocking. *Internet Dates from Hell* is not only a guide, it is also a seven year journey through author Trisha Ventker's dating life as a single kindergarten teacher who relocated from the suburbs to New York City to find her soul mate. Fielding over four hundred responses on a given day and receiving more than fifty two thousand hits on her personal ad in an eight month span, Ventker shares her frightening but true dating encounters in the wonderful world of online dating. Follow Ventker through the trials and tribulations of her quest to find Mr. Right. Along the path, Trisha Ventker endures hundreds of first dates. Encounters include a conspiracy theorist living in the United Kingdom, a religious fanatic from Texas, a sadomasochistic psychiatrist, and even a pre-op transsexual. To name a few. Ventker's brutally honest memoir lets you step inside her shoes and experience her exciting journey firsthand.

This book attempts to capture the memorable and meaningful highlights of the authors journey and that of her friends and her friends friends who have been and a few who are still in search of their soul mate This collation of stories based on true male encounters and takes you into what I can only describe as the various corners and crevices of the T internet dating scene Oh my it certainly opens eyes Hold on tight to your surfboard and brace yourself for what I would guess are new experiences and insights which will hopefully guide or at least give all those food for thought who are on the T internet dating scene or indeed are thinking of getting involved This book may be of interest to those also NOT involved or interested in the T internet dating scene as they are happily married living with someone or have a long term relationship but under a separate roof Why You may ask Well surprisingly or not I was rather shocked at the number of guys who are on normal and the more dodgy riske dating websites who admit to being married or have a long term relationship and still have a need to have a Bit On The Side BOTS If I were to put a figure on it I would best guess that I am talking about 65% overall no wonder the t internet dating scene seems to have such a tarnished reputation There must be a drop down option when creating a personal profile as quite a few say that their status is unhappily married so go your own ways then Or am I being too simplistic It is also surprising to see the number of guys who feel a need to expose their family jewels on either or both their profile picture or live web cams well I suppose this is a way of not being identified by partners      16 Swipes Mark Andrew Powell,2020
