Microcomputer Methods for Social Scientists Philip A. Schrodt,1987 **A Research Primer for the Social and Behavioral Sciences** Miriam Schapiro Grosof,Hyman Sardy,2014-05-10 A Research Primer for the Social and Behavioral Sciences provides an introductory but comprehensive overview of the research process that primarily concerns human subjects This book discusses the methods of acquiring knowledge importance of a well chosen problem review of the literature and relationship between theory building and hypothesis testing The common sources of invalidity in practice non experimental research types Stevens classification of scales and estimation based on probabilistic sampling are also elaborated This text likewise covers the role of computer in research techniques for analysis of data univariate and bivariate statistics and assumptions underlying analysis of variance Other topics include the canonical correlation analysis non parametric analysis of variance deterministic problem analysis techniques and common errors in presentation of findings This publication is intended for novice investigators in the broad category of social and behavioral sciences **Computer Applications in the Social Sciences** Edward E. Brent,Ronald E. Anderson,1990 Presenting an introduction to computing and advice on computer applications this book examines hardware and software with respect to the needs of the social scientist It offers a framework for the use of computers with focus on the work station the center of which is a personal computer connected to networks by a telephone based modem *Handbook of Emergent Methods* Sharlene Nagy Hesse-Biber,Patricia Leavy,2013-10-15 Social researchers increasingly find themselves looking beyond conventional methods to address complex research questions This is the first book to comprehensively examine emergent qualitative and quantitative theories and methods across the social and behavioral sciences Providing scholars and students with a way to retool their research choices the volume presents cutting edge approaches to data collection analysis and representation Leading researchers describe alternative uses of traditional quantitative and qualitative tools innovative hybrid or mixed methods and new techniques facilitated by technological advances Consistently formatted chapters explore the strengths and limitations of each method for studying different types of research questions and offer practical in depth examples New Technology in Sociology Grant Blank,James L. McCartney,Edward E. Brent,1989-01-01 When technology has been applied in business environments its justification has usually been cast in terms of saving time or saving money In the social sciences the justification must be different the viability of sociology as a profession for example will not be enhanced by cost reductions The focus in this volume is on a different bottom line the quality and content of work **Understanding Regression Analysis** Larry D. Schroeder,David L. Sjoquist,Paula E. Stephan,2016-10-20 Understanding Regression Analysis An Introductory Guide presents the fundamentals of regression analysis from its meaning to uses in a concise easy to read and non technical style It illustrates how regression coefficients are estimated interpreted and used in a variety of settings within the social sciences business law and public policy Packed with applied examples and using few equations the book

walks readers through elementary material using a verbal intuitive interpretation of regression coefficients associated statistics and hypothesis tests The Second Edition features updated examples and new references to modern software output

Propensity Score Methods and Applications Haiyan Bai,M. H. Clark,2018-11-20 A concise introductory text Propensity Score Methods and Applications describes propensity score methods PSM and how they are used to balance the distributions of observed covariates between treatment conditions as a means to reduce selection bias This new QASS title specifically focuses on the procedures of implementing PSM for research in social sciences instead of merely demonstrating the effectiveness of the method Using succinct and approachable language to introduce the basic concepts of PSM authors Haiyan Bai and M H Clark present basic concepts assumptions procedures available software packages and step by step examples for implementing PSM using real world data with exercises at the end of each chapter allowing readers to replicate examples on their own   *Linear Regression* Damodar N. Gujarati,2018-06-14 Damodar N Gujarati s Linear Regression A Mathematical Introduction presents linear regression theory in a rigorous but approachable manner that is accessible to students in all social sciences This concise title goes step by step through the intricacies and theory and practice of regression analysis The technical discussion is provided in a clear style that doesn t overwhelm the reader with abstract mathematics End of chapter exercises test mastery of the content and advanced discussion of some of the topics is offered in the appendices   *Documentation Abstracts* ,1989   *Research Methods in Human Ecology/home Economics* John Touliatos,Norma H. Compton,1988 Included are examples of a research proposal and a thesis proposal as well as tests and measurements and 20 synopses of published research No advance understanding of statistics or tests and measurements is necessary Annotation copyright Book News Inc Portland Or   Microcomputer Software for Performing Statistical Analysis Peter Hernon,John V. Richardson,1988   **Information Technology For The Social Scientist** Ray Lee University of London.,2014-05-01 Accessible and practical overview to help social reseachers make the most of information technology in relation to research design and selection management and analysis of research data The book pinpoints current and future trends in computer assisted methods This book is intended for postgraduate and undergraduate social research methods courses and professional social researchers in sociology social policy and administration social psychology and geography Particular appeal to courses in computer applications for social scientists and researchers   *Handbook of Research Design and Social Measurement* Delbert C. Miller,1991-07-05 Includes bibliographical references and index   **Sociological Methods & Research** ,1987   Human Communication Research ,1986   *Work and Occupations* ,1984   *Manual Sage Publications/SRM Database of Social Research Methodology* T.B.M. Douwes,1995   **Death and Adolescent Bereavement** ,1991   **Missing Data** Paul D. Allison,2001-08-13 Using numerous examples and practical tips this book offers a nontechnical explanation of the standard methods for missing data such as listwise or casewise deletion as well as two newer and better methods maximum likelihood and multiple imputation Anyone who has relied on ad hoc methods that are

statistically inefficient or biased will find this book a welcome and accessible solution to their problems with handling missing data **Applied Logistic Regression Analysis** Scott Menard,1995-06-29 Emphasizing the parallels between linear and logistic regression Scott Menard explores logistic regression analysis and demonstrates its usefulness in analyzing dichotomous polytomous nominal and polytomous ordinal dependent variables The book is aimed at readers with a background in bivariate and multiple linear regression
