Ferdinand Van Steenberghen or Alain De Libera term radical Aristotelianism or Integral Aristotelianism The word temptations as its meaning clearly shows delineates not an organic link with heterodox or radical ideas but rather an intermittent inclination to include or evaluate themes related to these ideas Temptations implies a search an interrogation that consists of the doubts and uncertainties of a poet strongly involved in the intellectual debate of his time and culture and for whom philosophy and theology are not fields of opposition but different modes of inquiry

**Literary Medicine: Brain Disease and Doctors in Novels, Theater, and Film** J., Bogousslavsky, S., Dieguez, 2013-02-21 Classical and modern literature is full of patients with interesting neurological cognitive or psychiatric diseases often including detailed and accurate descriptions which suggests the authors were inspired by observations of real people In many cases these literary portrayals of diseases even predate their formal identification by medical science Fictional literature encompasses nearly all kinds of disorders affecting the nervous system with certain favorites such as memory loss and behavioral syndromes There are even unique observations that cannot be found in scientific and clinical literature because of the lack of appropriate studies Not only does literature offer a creative and humane look at disorders of the brain and mind but just as authors have been inspired by medicine and real disorders clinicians have also gained knowledge from literary depictions of the disorders they encounter in their daily practice This book provides an amazing and fascinating look at neurological conditions patients and doctors in literature and film in a way which is both nostalgic and novel
