Louisiana's Capitols Lawrence N. Powell,1995-08-01     No Spark of Malice William Arceneaux,2004-10-01 On April 22 1896 Martin Begnaud was brutally murdered in his general store in Scott Station Louisiana He was bound gagged blindfolded stabbed more than fifty times and robbed of over 5 000 Ten months later after one of the most extensive manhunts in nineteenth century Louisiana public shock and outrage reemerged when two teenage brothers from France Ernest and Alexis Blanc were arrested for the crime William Arceneaux sets the story of Begnaud s murder the Blanc brothers trial and the media circus surrounding it all against the backdrop of Acadian history from the 1604 establishment of a French colony in the Canadian maritime provinces to the eventual creation of a New Acadiain South Louisiana By intertwining a suspenseful account of this heinous crime with an exploration of the citizens it affected No Spark of Malice provides insight into a fascinating people place and era

Orleans was from the first what geographer Peirce Lewis called an impossible but inevitable city How New Orleans came to be taking shape between the mutual and often contradictory forces of nature and urban development is the subject of An Unnatural Metropolis Craig E Colten traces engineered modifications to New Orleans s natural environment from 1800 to 2000 Before the city could swell in size and commercial importance as its nineteenth century boosters envisioned builders had to wrest it from its waterlogged site protect it from floods expel disease and supply basic services using local resources Colten shows how every manipulation of the environment made an impact on the city s social geography as well often with unequal adverse consequences for minorities and how each still requires maintenance and improvement today For example while the massive levee system has controlled the unpredictable Mississippi it also captures heavy down pours creating a new set of internal flood problems Urban geographers frequently have portrayed cities as the antithesis of nature
