**Love and Human Separateness** İlham Dilman, 1987-01      **MIND and LOVE: The Human Experience** Lloyd Fell, 2011-01-04 The new scientific paradigm of embodied mind or situated cognition is percolating into popular mind science but its fundamentals autopoiesis and structural coupling have never been thoroughly explained Combines the paradigm shift in biology initiated by Maturana and Varela with the recent rush of ideas in social neuroscience to create what hopes to be a refreshingly new explanation of the way our mind works in our everyday experience and reveals the most common blind spots in what we thought we knew about our mind These blind spots are spoiling our individual lives and harming our prospects for peaceful coexistence and care of our environment e g the mistaken ideas that meaning is transferable that decisions come from conscious awareness or that knowledge is a commodity The biological significance of love and the value of embracing uncertainty and respecting the unknown point to a very hopeful vision for our future This is a scientific explanation of mind leavened with process philosophy also invoking spirituality without any religious connotation      *Judaism Is About Love* Shai Held, 2024-03-26 A profound startling new understanding of Jewish life illuminating the forgotten heart of Jewish theology and practice love A dramatic misinterpretation of the Jewish tradition has shaped the history of the West Christianity is the religion of love and Judaism the religion of law In the face of centuries of this widespread misrepresentation Rabbi Shai Held one of the most important Jewish thinkers in America today recovers the heart of the Jewish tradition offering the radical and moving argument that love belongs as much to Judaism as it does to Christianity Blending intellectual rigor a respect for tradition and the practices of a living Judaism and a commitment to the full equality of all people Held seeks to reclaim Judaism as it authentically is He shows that love is foundational and constitutive of true Jewish faith animating the singular Jewish perspective on injustice and protest grace family life responsibilities to our neighbors and even our enemies and chosenness Ambitious and revelatory Judaism Is About Love illuminates the true essence of Judaism an act of restoration from within      **Love** I. Dilman, 2016-01-13 The book is concerned with questions about love questions about its many forms strands and aspects and the relation in which they stand to each other It is concerned with the way different aspects of sexual love conflict with each other with the way self regard and self interest can corrupt love and with spiritual love and its difficulties It seeks the views of some writers who have suggested some distinctive solutions to the existential problems that love poses in the face of its obstacles Plato Proust Sartre Freud D H Lawrence Erich Fromm C S Lewis Kierkegaard Simone Weil and Kahlil Gibran      **Cosmopolitan Love and Individuality** Nigel Rapport, 2018-11-23 Love discovers the reality of individual human beings wrote Iris Murdoch love deifies the person wrote Ralph Waldo Emerson This book proposes love as a kind of civic virtue that loving recognition might function as a universal form of ethical engagement and inclusion Loving recognition is proposed as a civil practice that enshrines the individuality of human identity overcoming the labels and classes of ethnicity nationality religiosity and social status A particular

understanding of love is suggested Love as civic virtue is described as a complex comprising emotional attraction to a human being together with discernment of the individual specificity of that human being and also respect for that specificity in a loving engagement the individuality of the other person is let be given the space to subsist and encouraged to fulfil itself Who is this beloved other human being It is Anyone Loving recognition is universalizing It not only insists on a human species wide commonality that supervenes upon the ways in which we habitually classify the world according to invented categories such as people s supposed belonging to national or ethnic or religious or economic or cultural groups and classes it also insists on recognizing Anyone the globally common individual human being and including Anyone within a universalizing loving practice This book places its faith in love because of the motivating force that love delivers Love s emotional engagement is such as to individuate the beloved in themselves as themselves and for themselves The force of love overcomes the habit of seeing the world through a society s and a culture s conventional classificatory lens Love delivers a kind of epiphany a moment of vision such that the other human being does not appear as representative of a social category or class but is rightfully appreciated as being in possession of a unique and precious individual life Love's Virtues Mike

W. Martin,1996 This book brings together a sensitive understanding of love and an unusually careful even painstaking analysis of the enormous but often neglected role of morality and the virtues in love Martin s discussions of such virtues as caring courage fidelity and honesty are superb the examples well chosen the argument personal but nevertheless rigorous the prose accessible and enjoyable to read **Ancient Israel, Judaism, and Christianity in Contemporary Perspective** Jacob Neusner,2006 The late Karl Johan Illman was a professor of Biblical and Judaic studies at Abo Akademi University in bo Turku Finland A beloved and respected figure in the Judeo Christian dialogue and an accomplished scholar of Judaism he is remembered in this memorial volume by leading scholars of Biblical and Judaic studies in Europe and North America

**Post-Punk Perception** Edmund Wong,2013-07-27 Growing up in Singapore in the 80s has been challenging I didn t know much about life or economy I didn t know what I want to do apart from playing I know I had to study and get a job In school we had to write composition about our profession when we grow up I had never wanted to be a philosopher let alone writing about social philosophy It is just that growing up with a single parent is tough It is tougher when she is uneducated and I had to learn most things by myself After my National Service I decided to further studies That was when I was exposed to philosophy and psychology in the UK After graduation in 1999 with a degree in Electronics I came back home to resume my National Service I disrupt it and had about 2 months left The life in UK exposed me to something that I did not notice when growing up in Singapore I find local social scene unsatisfactory They are Confucians Muslims Christians freethinkers and humanists Most time they are preoccupied with how to earn more money Religion does not give me the fulfillment that it promised In addition most were based on Singaporeans interpretation of the Bible and Buddhism s dharma Most times I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it It end up like

what Pope Francis referred to as the cult of money Organised religion involves more fear mongering than cultivating an inner grace and peace Hence this book is about how I relate an ancient thinker s ethics Aristotle to the present day I find Aristotle s ethics to most suit my needs as a man and lover It does not pretend to be more than what it seek the golden mean It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues I also find other philosophers French or not particularly insightful and thought provoking They offer me explanation and exploration on subjects like love sex and death Freudian psychoanalysis are also very penetrating in their findings and insights Moreover I needed some contemporary psychological theory not in depth psychoanalysis to back Aristotle s model of ethics intellectual and moral virtues Hence the psychological background of my book I got acquainted with these psychological theories when I was preparing myself to be a financial consultant I later found out more about them and they became useful in my work and life Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in Because everyone of us are affected by the social sciences politics economics and sociology This book will I hope allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia My wish is simply to share what I enjoy doing apart from creating useful ideas to improve the world Through my book I hope to make others understand religion science and philosophy and how they play an increasingly integral part in the Asian century

**Bioethics Is Love of Life; An Alternative Textbook** Macer, D. R. J.,1998      **Ars Vitae** Elisabeth Lasch-Quinn,2020-10-15 Despite the flood of self help guides and our current therapeutic culture feelings of alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is ars vitae the art of living Today signs of stress and duress point to a full fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self s needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today s culture auguring a new cultural vibrancy or do they merely solidify a modern way of life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions Ars Vitae sounds a

clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need
