Love Sex Tragedy How The Ancient World Shapes Our Lives:

Love, Sex & Tragedy Simon Goldhill, 2004-01-01 We seem to be living through a Classical renaissance. Gladiator was a global phenomenon and a clutch of classical films are now being made in Hollywood. Greek tragedies are staged the world over. Millions of primetime viewers watched Channel 4's *The Spartans*. Valerio Massimo Manfredi's Alexander trilogy was a huge bestseller. But the Greeks and Romans do not just offer great entertainment. LOVE SEX AND TRAGEDY reveals how the influence of the ancient world can be seen throughout the modern world. Democracy and spin, diets and the gym, marriage and sex all play their part. No other book brings together the ancient and modern so inspiringly and provocatively. Part Alain de Botton, part Will Hutton, LOVE SEX AND TRAGEDY is an essential guide to our lives today. Love, Sex & Tragedy Simon Goldhill, 2005 Simon Goldhill examines the most basic areas of our lives today from marriage and sex to politics and entertainment. Whether we are falling in love or waging wars in the name of democracy, he reveals how Classical ideas continue to shape our behaviour and our attitudes in crucial ways. Full of surprising facts and startling stories, it will appeal to anyone interested in history and its influence on our lives. It is as wide ranging as it is readable, with a brilliant cast of characters. Few books could bring together Freud, Plato, Queen Victoria, Romeo and Juliet, George W. Bush and Charles Atlas in this way. Inspiring, thought provoking and illuminating, LOVE SEX AND TRAGEDY shows again and again how and why the Romans and Greeks still matter. Unbridled William Robert, 2022-02-14 In *Unbridled*, scholar of religion William Robert uses Peter Shaffer's enigmatic 1973 play *Equus* about a boy passionately devoted to horses to think about and teach religion. For Robert, a play like *Equus* tangles together text, performance, practice, embodiment and reception. Studying a play involves us in playing different roles as ourselves and others, and those roles as well as the imaginative work they require are critical to the study of religion. By approaching *Equus* with the reader, Robert transforms standard approaches to the study of religion, engaging with key themes including ritual, sacrifice, worship, power, desire, violence and sexuality, as well as major thinkers such as Marx, Freud, Nietzsche and contemporary theorists such as J. Z. Smith and Judith Butler. As Robert shows, the way themes and theories play out in *Equus* challenges us to imagine the study of religion anew through open questioning, contrasting perspectives and alternative modes of interpretation and appreciation. The Politics of Consolation Christina Simko, 2015 What meaning can be found in calamity and suffering? This question is in some sense perennial, reverberating through the canons of theology, philosophy and literature. Today *The Politics of Consolation* reveals it is also a significant part of American political leadership. Faced with uncertainty, shock or despair, Americans frequently look to political leaders for symbolic and existential guidance for narratives that bring meaning to the confrontation with suffering, loss and finitude. Politicians in turn increasingly recognize consolation as a cultural expectation and they often work hard to fulfill it. The events of September 11, 2001 raised these questions of meaning powerfully. How were Americans to make sense of the violence that unfolded on that sunny Tuesday morning? This book examines how political leaders drew upon a long tradition of

consolation discourse in their effort to interpret September 11 arguing that the day's events were mediated through memories of past suffering in decisive ways It then traces how the struggle to define the meaning of September 11 has continued in foreign policy discourse commemorative ceremonies and the contentious redevelopment of the World Trade Center site in lower Manhattan

Religion in Human Evolution Robert N. Bellah, 2011-09-15 This ambitious book probes our biological past to discover the kinds of lives that human beings have imagined were worth living Bellah's theory goes deep into cultural and genetic evolution to identify a range of capacities communal dancing storytelling theorizing whose emergence made religious development possible in the first millennium BCE

Mourning in America David W. McIvor, 2016-10-20 In Mourning in America McIvor addresses significant and urgent questions about how citizens can mourn traumatic events and enduring injustices in their communities McIvor offers a framework for analyzing the politics of mourning drawing from psychoanalysis Greek tragedy and scholarly discourses on truth and reconciliation
