Haas,2011 Christian Science Sentinel ,1904 Being and Truth Thomas Langan,1996 In his earlier volume Tradition and Authenticity in the Search for Ecumenic Wisdom Thomas Langan explored the distinctive kinds of truth handed on by explicit traditions and raised the question of integrating these many diverse truth claims into a responsible meaningful vision of reality In Being and Truth the author lays a foundation for this concept a theory of knowledge and a theory of being that can find a place for all these differing realities Although experience is always interpreted in the light of our traditions Being and Truth shows that this does not preclude real access to persons things and their interrelationships Balancing the realities of subjectivism with the demands of objective form and structure giving both the relatively permanent and the ephemeral their due is at every moment delicate The common sense at the core of each person s natural faith must serve as a guide yet neither of these is a simple notion Langan unabashedly calls on his own wide ranging experience of the lived world to illustrate this dialectic Students and scholars of political philosophy intellectual history and theology will benefit from this rich and insightful text which integrates historicity without undermining the possibility of attaining lasting truth **BOOK**
