Victorians

and Their Animals Brenda Ayres, 2018-12-07 This book *Victorians and Their Animals: Beast on a Leash* investigates the notion that British Victorians did see themselves as naturally dominant species over other humans and over animals. They conscientiously hegemonically were determined to rule those beneath them and the animal within themselves albeit with varying degrees of success and failure. The articles in this collection apply posthuman and other theories including queer postcolonialism, deconstruction and Marxism in their exploration of Victorian attitudes toward animals. They study the biopolitical relationships between human and nonhuman animals in several key Victorian literary works. Some of this book's chapters deal with animal ethics and moral aesthetics. Also being studied is the representation of animals in several Victorian novels as narrative devices to signify class status and gender dynamics either to iterate socially acceptable mores or to satirize hypocrisy or breach of behavior or to voice social protest. All of the chapters analyse the interdependence of people and animals during the nineteenth century.

The selfless exploits of our heroic dogs are writ indelibly in our nation's heritage and identity. *The Dogs That Made Australia* is a vivid and meticulously researched history of Australia told from the perspectives of the dingo and of the dogs that were imported and developed here as well as the humans who loved, feared and worked them.
