LA LUZ ES EL TEMA

José Ignacio Lirazazosoro
Luz y Fábrica

El tema de Louis I. Kahn es, en principio, una descripción con tanto detalle de sus proyectos del Museo Kimbell como si no fuese más que una serie más bien corta de fotografías tomadas de la luz natural.

La luz natural establece para el arquitecto la relación entre arquitectura y naturaleza, lleva a una luz artificial siempre estética, para distinguir el lujo de las fábricas y las fábricas, para las que se trae de un principio básico del que nacieron se ha servido la arquitectura.

Este esencia que más o menos muestra como Louis Kahn se refiere a estos elementos en sus fábricas de manera muy diferente. En la sede del museo que se expresa como un edificio que se adapta a su entorno con el que se integra y de cierta manera, mediante el cual, permite que el proyecto no falle que responda la funcionalidad en su relación con la luz natural.

Kahn trata, en primer lugar, de salir al punto de una tendencia que ya se veía impidiendo que la luz en la arquitectura de los museos debía fundirse en un entorno iluminado muy determinado en sus fábricas de los proyectos de los objetos expuestos como de las edificaciones proyectadas de los museos, se perturbaran las ópticas pétroicas que se determinan en virtud de como la luz ilumina cada

esta tendencia parece haberse consolidado rápidamente en formas de mecanografías y otros agentes que actualmente controlan la arquitectura museística, pero en tiempos de Kahn, que contrasta además con su cliente

Louis Kahn John Lobell, 2020-06-30 For everyone interested in the enduring appeal of Louis Kahn this book demonstrates that a close look at how Kahn put his buildings together will reveal a deeply felt philosophy. Louis I Kahn is one of the most influential and poetic architects of the twentieth century a figure whose appeal extends beyond the realm of specialists. In this book noted Kahn expert John Lobell explores how Kahn's focus on structure respect for materials clarity of program and reverence for details come together to manifest an overall philosophy. Unlearning Architecture Cengiz Yetken, 2021-02-25 About the Book Louis I Kahn 1901 1974 was one of the most prolific architects of the twentieth century. He taught architecture at Yale University and the University of Pennsylvania. He designed and built public and institutional projects in the United States and abroad. His buildings are treasured by architects educators and the public and have received accolades national and international recognition and awards in architecture. Book Description The book traces Kahn's approach to architectural design through his poetic phrases uttered in class and it examines these as guidelines to establish a basic road map for architecture. Accompanied by concept sketches and photographs that describe Kahn's buildings in a

personal light Yetken walks us through buildings and recalls anecdotes comments and stories from Kahn's class and office. The approach to the subject matter is new. It is a fresh look at Louis Kahn. It doesn't repeat things that have already been written or said. It conveys the dynamism of Kahn in academic and professional practice environments. This book offers a brand new context for understanding Kahn's philosophical views, deciphering his poetic musings as they relate to the actual design processes that took place in his class and in his office in particular based on the personal involvement of the author with the particular project. This is also an immigrant story, the coming of age of a young architect from modest beginnings in his native Turkey to a transformative intellectual and professional journey in America and above all to a successful career inspired by someone with greatness. Contribution and Readership: The book is different from comparable architectural books. It is written in nonacademic, readable and easily understandable language. It is the only book on the subject that describes how Kahn guided his students and his staff. It explains how he structured his approach, how he described architecture to his students and his coworkers in his office and how he envisioned the role architects should play in society. The book will be helpful and appealing to a broad potential readership such as students of architecture, art and design, teachers of these disciplines, scholars of Louis Kahn and American architecture in general, practicing architects and anyone interested in the creative design process.

Louis Kahn to Anne Tyng Louis I. Kahn, 1997. The fifty three letters document not only their intense private relationship but also give a vibrant account of the experience of a brilliant young architect on the cusp of achieving international renown.

Louis I Khan Beyond Time and Style Carter Wiseman, 2007-02-27. The first in depth biographical study of the brilliant but elusive architect who fundamentally redefined twentieth century architecture. Now ranked with Frank Lloyd Wright, Le Corbusier and Mies van der Rohe, Louis I Kahn brought a reverence for history back into modern architecture while translating it into a uniquely contemporary idiom. Drawing on more than one hundred interviews with colleagues, coworkers, clients and family members and illustrated with many previously unpublished photographs, this book documents the uniquely American rise of a poor immigrant to the pinnacle of the international architectural world. It illuminates the richly diverse personal relationships Kahn had with such clients as Jonas Salk and Paul Mellon and the romantic entanglements that mystified even those closest to him. While celebrating the genius of Kahn's art, the book provides an invaluable portrait of the man who created it.

The Architects: Louis Kahn Robert Hughes, 2015-05-20. Louis Kahn was one of the most important architects of the twentieth century, hailed as a master of materials but also of light. The plan of a building, he once said, should be read like a harmony of spaces created in light. Here in this essay by the legendary art critic Robert Hughes is Kahn's story.
