Basow,1980 *The Philosophy of (erotic) Love* Robert C. Solomon,Kathleen Marie Higgins,1991 Solomon and Higgins have chosen excerpts from the great philosophical texts and combined them with the most exciting new work of philosophers writing today It examines the mysteries of erotic love from a variety of philosophical perspectives and provides an impressive display of wisdom that the world s best thinkers have brought and continue to bring to the study of love **Men in Transition** Kenneth Solomon,2013-11-11 Every year the few hundred members of the Committees Task Forces and Councils of the American Psychiatric Association meet in Washington D C to conduct their business They deliberate on a wide variety of issues encompassed in the activities of each group The psychiatrists constituting this mixed and somewhat elite group include some of the better known and promising people in the profession which makes the plenary session and cocktail party good occasions to meet old friends and to make new ones Several years ago one of us N B L attended this gathering as a member of a soon to be defunct group the Committee Liaison with the American College of Physicians and met Ann Chappell a member of the Task Force on Women We were soon joined by Richard Grant Ann impressed us with the work her group was doing on issues surrounding the Women s Movement as it relates to patients and the changing roles of the early 1970s She was struck by the fact that although some women had been very active in this endeavor nobody in Ameri can psychiatry was addressing issues which are arising in men as a result of the changing roles of women in society Dick and Norm were moved by what she said and decided that they would make an effort to gather together people interested in the issue of the changing roles of males in society at the oncoming meeting of the American Psychiatric Association **Sex Roles** Shirley Weitz,1977 *The Relationship of Sex and Sex-role Orientation to Attitudes about Love and Sex* Niki E. Saros,1987 **Sex Differences** Lee Ellis,Scott Hershberger,Evelyn Field,Scott Wersinger,Sergio Pellis,David Geary,Craig Palmer,Katherine Hoyenga,Amir Hetsroni,Kazmer Karadi,2013-05-13 This volume is the first to aim at summarizing all of the scientific literature published so far regarding male female differences and similarities not only in behavior but also in basic biology physiology health perceptions emotions and attitudes Results from over 18 000 studies have been condensed into more than 1 900 tables with each table pertaining to a specific possible sex difference Even research pertaining to how men and women are perceived stereotyped as being different is covered Throughout this book s eleven years in preparation no exclusions were made in terms of subject areas cultures time periods

or even species The book is accompanied by downloadable resources containing all 18 000 references cited in the book Sex Differences is a monumental resource for any researcher student or professional who requires an assessment of the weight of evidence that currently exists regarding any sex difference of interest It is also suitable as a text in graduate courses pertaining to gender or human sexuality Women's Best Friendships Patricia Rind,2012-12-06 Explore the distinct relationships of close female friends Women s Best Friendships Beyond Betty Veronica Thelma and Louise gives new and comprehensive insight into the complex world of women s closest friendships Recent studies have shown that women place enormous value on best friendships and consider them to be woven tightly into the fabric of their lives Using in depth interviews along with close readings of relevant literature and theory this book focuses on the many facets of these relationships With heartfelt first person accounts and insightful commentary from the author this book examines three intertwining themes feelings of competition issues of dependence and independence and knowing understanding This book sheds light on areas of tension among women especially difficulties in communication frustration about not being entirely let into a friend s life and thought processes and the feeling that one friend may value the friendship more than the other It also discusses women s struggles to maintain closeness over increased distances and the realization that one s friends are flawed even as friends This informative book grounded in established research and theory presents stories of real friendships told by the people who live them These women talk candidly about what makes a best friend about navigating the choppy waters of friendship and much more Somehow when we started living farther apart there were ways in which we were being insensitive We recognized that there was a really strong bond but we were taking it for granted So we talked about how close we feel to one another and perhaps how that leads to some arguments or hurt feelings Liz on how distance has affected her relationship with her best friend Susan Em and I don t fight at all I don t know if that s good or bad I don t think I do well with fights I think that s probably a lot of conflict avoidance on my part And I think it does lead to some distance even though it s a best friendship I think I m uncomfortable asserting myself And so it s easier not to have to do that So maybe my inability to deal with the problems keeps the friendship at a distance where it s safe and comfortable for me in that one respect Linda about her desire to avoid any confrontation with Emily her best friendWomen s Best Friendships Beyond Betty Veronica Thelma and Louise is a fresh and exciting look at the inner workings of relationships between women Drawing upon a multitude of issues and insights this book is a must have for women s studies classes **Thesaurus of ERIC Descriptors**,1995 4th 7th eds contain a special chapter on The role and function of the thesaurus in education by Frederick Goodman
