Love Lyrics From The Carmina Burana

William Doremus Paden

Love Lyrics From The Carmina Burana:

Love Lyrics from the Carmina Burana Patrick Gerard Walsh, 1993 A superb volume fully worthy of these famous but often misunderstood poems P G Walsh's unmatched erudition in Latin literature furnishes lucid grammatical explanations incisive analysis of goliardic literary values and technique and illuminating references to ancient and medieval parallels His prose translations make the poems accessible also to those with little or no Latin Janet M Martin Princeton University

Medieval Lyric William Doremus Paden, 2000 An essential volume for medievalists and scholars of comparative literature Medieval Lyric opens up a reconsideration of genre in medieval European lyric Departing from a perspective that asks how medieval genres correspond with twentieth century ideas of structure or with the evolution of poetry this collection argues that the development of genres should be considered as a historical phenomenon embedded in a given culture and responsive to social and literary change

Collaborative Translation and Multi-Version Texts in Early Modern Europe Belén Bistué, 2016-05-23 Focusing on team translation and the production of multilingual editions and on the difficulties these techniques created for Renaissance translation theory this book offers a study of textual practices that were widespread in medieval and Renaissance Europe but have been excluded from translation and literary history The author shows how collaborative and multilingual translation practices challenge the theoretical reflections of translators who persistently call for a translation text that offers a single univocal version and maintains unity of style In order to explore this tension Bistué discusses multi version texts in both manuscript and print from a diverse variety of genres the Scriptures astrological and astronomical treatises herbals goliardic poems pamphlets the Greek and Roman classics humanist grammars geography treatises pedagogical dialogues proverb collections and romances Her analyses pay careful attention to both European vernaculars and classical languages including Arabic which played a central role in the intense translation activity carried out in medieval Spain Comparing actual translation texts and strategies with the forceful theoretical demands for unity that characterize the reflections of early modern translators the author challenges some of the assumptions frequently made in translation and literary analysis The book contributes to the understanding of early modern discourses and writing practices including the emerging theoretical discourse on translation and the writing of narrative fiction both of which as Bistué shows define themselves against the models of collaborative translation and multi version texts

Music Ted Gioia, 2019-10-15 A dauntingly ambitious obsessively researched Los Angeles Times global history of music that reveals how songs have shifted societies and sparked revolutions Histories of music overwhelmingly suppress stories of the outsiders and rebels who created musical revolutions and instead celebrate the mainstream assimilators who borrowed innovations diluted their impact and disguised their sources In Music A Subversive History Ted Gioia reclaims the story of music for the riffraff insurgents and provocateurs Gioia tells a four thousand year history of music as a global source of power change and upheaval He shows how outcasts immigrants slaves and others at the margins of society have repeatedly served as

trailblazers of musical expression reinventing our most cherished songs from ancient times all the way to the jazz reggae and hip hop sounds of the current day Music A Subversive History is essential reading for anyone interested in the meaning of music from Sappho to the Sex Pistols to Spotify Micro Middle Ages Paul Edward Dutton,2023-10-30 Micro Middle Ages brings together five microhistorical case studies focusing on small or seemingly inconsequential evidence that leads to broader conclusions about medieval history and the way we do and understand history in general Paul Dutton provides an overview of microhistorical approaches and theorizes about its use in pre modern history As opposed to studying history from above or history from below Dutton shows the advantages for historians of doing history from the inside out starting from some single overlooked but potentially knowable thing delving deep inside and then reattaching it to its time and place Such an approach has one abiding advantage its insistence on being grounded in the particularity of the evidence The book highlights what the microhistorical is its conceptual and practical challenges Dutton argues that the attention to the micro has always been with us and is a constitutive cognitive part of who we are as human beings Medieval Latin K. P. Harrington,Joseph Pucci,1997-11-10 To help place the selections within their wider historical social and political contexts Pucci has written extensive introductory essays for each of the new edition s five parts Headnotes to individual selections have been recast as interpretive essays and the original bibliographic paragraphs have been expanded Reprinted from the best modern editions the selections have been extensively glossed with grammatical notes geared toward students of classical Latin who may be reading medieval Latin for the first time *Modern Philology* Philip Schuyler Allen,John Mathews Manly,1909 Vols 30 54 include 1932 56 of Victorian bibliography prepared by a committee of the Victorian Literature Group of the Modern Language Association of America A History of European Literature Walter Cohen,2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus

in the creation of today's global literary system. The distinctiveness of European literature is to be found in these interrelated trajectories

Latin Poetic Irony in the Roman de la Rose Marc M. Pelen, 1987 The Roman de la Rose is a work of ambivalence and paradox; recurring images and topics are handled in a contradictory manner by different speakers. These apparent oppositions spring as Dr Pelen argues in this important study from an underlying structure of irony deriving from the poem's Latin models. The two traditions of irony examined are those of Ovidian love poetry transmitted through goliardic lyric and dream visions and of Boethian didactic mediated by Alain de Lille. The impact of these traditions on the authors of Le Roman de la Rose is then analysed. What emerges is a stance from which the order of the poem and the unique ambition of its erotic dreamer can be better understood
