Digital Transformation in Sports Jillian McNiff Villemaire, Haiyan Huang, 2025-08-12 The sports industry is one of the most robust and competitive sectors in the world. Over the last decade, the integration of technology into sports has dramatically transformed the dynamics of how the sports industry operates. Sports analytics, i.e., the integration of data science and sports, is at the forefront of this digital transformation. Sports analytics encompasses the applications of innovative technologies and advanced analytical techniques to assess and enhance performance of players and teams, improve decision making across diverse aspects, and bolster competitive advantages and strategies. Digital Transformation in Sports explores the key driving forces and emerging trends that are fueling the digital transformation of the sports industry. It presents a collection of chapters that delve into state-of-the-art research and real-world applications of sports analytics, providing a diverse perspective on its transformative impact across different sports sectors. It showcases how advanced technologies such as the Internet of Things (IoT), machine learning (ML), and artificial intelligence (AI) are revolutionizing player performance, strategic decision making, fan engagement, and operational efficiency. For example, by utilizing sensors, wearable technologies, tracking devices, and 5G networks, IoT technologies can collect an unprecedented amount of data in real time and enable the near instantaneous transmission of this data to centralized platforms for analysis. Sophisticated analytics powered by AI and ML enable the extraction of actionable insights from this raw data, transforming it into valuable intelligence that drives better decision making. By offering a bridge between theoretical frameworks and practical applications, this book demonstrates how such concepts as technology acceptance theories inform the successful implementation and adoption of analytics solutions. By drawing upon interdisciplinary insights, the chapters provide valuable tools and frameworks for researchers, analysts, practitioners, and stakeholders, delivering actionable guidance to harness the full potential of analytics in the rapidly evolving sports landscape.

Internationalization of Sport Events Through Branding Opportunities Singh Rai, Jaskirat, Itani, Maher N., Singh, Amandeep, 2024-10-23 Contemporary sports have transformed from entertainment activities that bring people together to a lucrative business that sparks sport fans to engage and share content on social media. A successful sport event promotes the visibility of sponsors and brands, cultivating a dedicated following for participating teams, generates income for its organizers, and enhances the financial gains and popularity of star players. Branding, such as this, has emerged as an indispensable element in strategies that ensure the sport event is easily recognizable and inscriptive in the minds of sports consumers. Internationalization of Sport Events Through Branding Opportunities explains this shift as well as shares best practices for effective implementation of these strategies. By bringing together international teams and renowned players, organizers can ensure a high level of competition and excitement for sports enthusiasts. Covering topics such as celebrity sports players, product endorsement, and social media, this book is an excellent resource for researchers, scholars, graduate and postgraduate students, sports industry professionals, business and
