**Good Knowledge, Bad Knowledge** Stephen Hetherington, 2001-10-18 What is knowledge How hard is it for a person to have knowledge Good Knowledge Bad Knowledge confronts contemporary philosophical attempts to answer those classic questions by identifying and arguing against two fundamental epistemological presumptions Can there be both better and worse knowledge of some fact Can you improve your knowledge of a particular fact Can there be especially bad knowledge of a specific fact Epistemologists routinely answer these questions with a resounding No But Stephen Hetherington argues that those standard answers are mistaken The result is a theory of knowledge that is unique in conceiving of knowledge in a non absolutist way The theory offers new solutions to many traditional epistemological puzzles including various kinds of scepticism the Gettier challenge and the problem of the criterion It also offers a fresh way of using G E Moore s anti sceptical gambit along with reinterpretations of the epistemic roles of fallibility luck relevance and dogmatism And what can we know about knowledge The role of intuition in shaping epistemological thought about knowledge is critically examined Anyone working on epistemology will enjoy this original and challenging work

**Confessions of a Heretic** Eric Leland Saak, 2025-06-15 This book is the second of a planned three volume systematic theology under the title Confessions of a Heretic Volume One which has the subtitle Philosophical Considerations was published by Archway in 2024 The project now turns to Theological Considerations with the forthcoming Volume Three being Ecclesiological Consideration Organized into three Parts Volume Two focuses on the theological endeavor and the doctrines distinctive to Christianity namely the Trinity Jesus Christ sin and salvation Based on the foundational distinctions and definitions explicated in Volume One the current volume seeks to ask what the philosophical considerations imply for basic traditional understandings and terminology of Christian theology including that of Jesus of Nazareth his crucifixion and resurrection The project as a whole adopts a trinitarian structure with this second volume focused on God the Son or as here termed God the Perfector The argument is that Christian Theology needs to shift from an anthropocentric to a theocentric approach recognizing human beings simply as creatures and having the courage to face what that entails Yet doing so necessitates a radical reconceptualization of the very foundations of Christian Theology itself in the

of attempts to unify the sciences presents a model based account of intuitive judgments and contends that cognitive pluralism favors a reliabilist epistemology and a molecularist semantics Horst suggests that cognitive pluralism allows us to view rival epistemological and semantic theories not as direct competitors but as complementary accounts each an idealized model of different dimensions of evaluation     The Bertrams Anthony Trollope,1880     *The Modern Reader's Bible* ,1898
