Cosmopolitan Strangers in US Latinx Literature and Culture Esther Álvarez-López, Andrea Fernández-García, 2023-03-30 This book presents a study of the figure of the stranger in US Latinx literary and cultural forms ranging from contemporary novels through essays to film and transborder art activism The focus on this abject figure is twofold first to explore its potential to expose the processes of othering to which Latinxs are subjected and second to foreground its epistemic response to neocolonial structures and beliefs Thus this book draws on relevant sociological literature on the stranger to unveil the political and social processes behind the recognition of Latinxs as out of place On the other hand and most importantly this volume follows the path of neo cosmopolitan approaches to bring to the fore processes of interrelatedness interaction and conviviality that run counter to criminalizing discourses around Latinxs Through an engagement with these theoretical tenets the goal of this book is to showcase the role of the Latinx stranger as a cosmopolitan mediator that transforms walls into bridges
