Mystery Jonah Lehrer,2021-08-17 New York Times bestselling author Jonah Lehrer unravels the mystery of mysteries in this absolute delight Malcolm Gladwell of a book that blends psychology neuroscience and anthropology to shine a new light on everything from the formulas of our favorite detective shows to the tricks of successful advertising campaigns and the calculated risks of the stock market Why is mystery so compelling What draws us to the unknown Jonah Lehrer sets out to

answer these questions in a vividly entertaining and surprisingly profound journey through the science of suspense He finds that nothing can capture a person's attention as strongly as mystery and that mystery is the key principle in how humans view and understand the world Whenever patterns are broken we are hard wired to find out why Without our curiosity driving us to pursue new discoveries and solve stubborn problems we would never have achieved the breakthroughs that have revolutionized human medicine technology and culture From Shakespeare's plays to the earliest works of the detective genre our entertainment and media have continually reinvented successful forms of mystery to hook audiences Here Lehrer interviews individuals in unconventional fields from dedicated small business owners to innovative schoolteachers who use mystery to challenge themselves and to motivate others to reach to new heights He also examines the indelible role of mystery in our culture revealing how the magical world of Harry Potter triggers the magic of dopamine in our brains why the baseball season is ten times longer than the football season and when the suspect is introduced in each episode of Law Order Fascinating illuminating and fun Mystery explores the many surprising ways in which embracing a sense of awe and curiosity can enrich our lives
