Imagery Techniques in Modern Jewish Mysticism Daniel Reiser, 2018-07-09 This book analyzes and describes the development and aspects of imagery techniques, a primary mode of mystical experience in twentieth-century Jewish mysticism. These techniques, in contrast to linguistic techniques in medieval Kabbalah and in contrast to early Hasidism, have all the characteristics of a full screenplay: a long and complicated plot woven together from many scenes, a kind of a feature film. Research on this development and nature of the imagery experience is carried out through comparison to similar developments in philosophy and psychology and is fruitfully contextualized within broader trends of western and eastern mysticism.

promote self healing Mantak Chia explains how these exercises also provide a safe and effective method for receiving earth energy which allows the practitioner to achieve balance physically mentally and spiritually all of which are essential for the more advanced practices of Iron Shirt Chi Kung and Cosmic Healing It is our mind that directs and guides our chi but if the mind and body are out of balance or under stress the mind cannot perform this function The tan tien actually contains a large quantity of neurotransmitters making it a key source of body intelligence It is for this reason the Taoists also referred to Tan Tien Chi Kung as Second Brain Chi Kung and created exercises that would allow practitioners to gain awareness of the tan tien s function to restore the mind body balance that is essential for spiritual growth and optimal well being
