Patton, 2014-05-14 No detailed description available for Myth as Argument *Myths and Myth-makers* John Fiske, 1874 Myths and Myth-Makers: Old Tales and Superstitions Interpreted by Comparative Mythology John Fiske, 1873 *Myths and Myth-makers: Old Tales and Superstitions Interpreted by Comparative Mythology* Fiske, 1892 **Logical Argument in the Research Paper** Russ Ward, 1997 Logical Argument in the Research Paper

operate on the premise that collegiate level writing when cast in its most significant and sophisticated form is argumentative. Students are shown how writers examine a potential topic, establish a stance upon that topic, defend the stance, avoid reasoning and ethical errors, and in general say something meaningful about the topic. It also includes instruction about finding sources, gathering information from them, and correctly documenting them. However, the emphasis remains on how effective writers evaluate sources, think about the information they discover, prepare a fair and informed argument, rethink and revise the argument, and finally present an argument in its completed form. Logical Argument in the Research Paper will help students learn some of the reasoning processes that all writers use when composing the academic argument.

The Writings of John Fiske ...: Myths and myth makers John Fiske, 1902 *The Mythological State and its Empire* David Grant, 2010-06-21 We see the modern State as the most rational form of governing yet devised and one which properly recognises our inherent individual rights. However, as the histories of colonialism and imprisonment reveal, it is also an intruder into the lives of generally unwilling individuals, constraining rights. This book looks beneath the contradiction to see an entity willingly sustained by all individuals and for which we forgo our responsibility to and for ourselves. We place ourselves in the hands of those interests that promise to deal with our fears and desires the best. Probing the work of political thinkers from Hobbes to Rawls, the book discovers a State that is a real mythological entity spreading across social and geographic space and concerned first with satisfying our two passions. Understanding this mythology may allow reason to emerge from its service to fear and desire so that the modern State could become truly modern. This book will be of interest to scholars in Sociology, Politics, Philosophy, and Law.
