Mythical Quest In Search Of Adventure Romance And Enlightenment:

The Mythical Quest Rosalind Kerven, British Library, 1996 Myths and legends involving quests and journeys are found in many cultures. Throughout history, people have told stories of heroes and heroines grappling with monsters, evil spirits, the elements, and the gods. The stories have been expressed in song, dance, literature, and art, and given rise to countless myths and legends. They mirror the dreams and hopes of women and men for exciting adventures beyond their everyday experience. This book includes ten quest stories from around the world, showing how they have been interpreted, retold, and passed down the centuries. Some of the illustrations are reproduced from illuminated manuscripts in the collection of the British Library. The introduction by Penelope Lively discusses the nature of quest myths and how they have permeated the storytelling of so many cultures.

The Mythical Quest, 1996 Four British Fantasists Charles Butler, 2006-04-25 Four British Fantasists explores the work of four of the most successful and influential fantasy writers of the generation who rose to prominence in the second Golden Age of children's literature in Britain. Susan Cooper, Alan Garner, Diana Wynne Jones, and Penelope Lively. Drawing on history, archaeology, social geography, anthropology, and postcolonial theory, as well as literary criticism, Butler provides a series of new perspectives through which to view these writers' achievements. He begins by highlighting some points of biographic coincidence, e.g., all four authors were children during WWII, all were born within a year or two of each other, and all attended Oxford University in the early 1950s when C.S. Lewis and J.R.R. Tolkien were publishing their seminal fantasies and questions if these factors play any significant role in the development of these fantasy writers. The author then uses this question as the springboard for a case study in the assessment of biographical and literary influence. The book also considers the role played by Britain itself in determining the shape and preoccupations of these writers' fiction. Britain is a land with a long history in which contemporary life is constantly juxtaposed with evidence of the past in the form of ancient buildings, historic sites, and archaeological remains. By placing the work of Cooper, Garner, Jones, and Lively in the context of British culture and of their own time, Butler provides a key to their fascination with history, mythology, and magic, and to the ways in which that fascination has found expression in their fiction. Students of children's literature and of fantasy literature, as well as readers who are interested in the lives of these four subject authors, will find this an insightful read.

Mythography William G. Doty, 2000-03-21 Presenting major myth theorists from antiquity to the present, this work offers a cross-disciplinary approach to the study of myth. Rewritten and restructured, it reflects the increased interest in myth among both scholars and general readers since the publication of the first edition. *Giants, Monsters and Dragons* Carol Rose, 2001-12-04 Contains alphabetically arranged entries that describe the imaginary creatures found in legends, religions, folklore, oral history, and theologies around the world. Four British Fantasists Charles Butler, Catherine Butler, 2006-04-25 Explores the work of four of the successful writers of the generation of fantasy writers who rose to prominence in the second Golden Age of children's literature in Britain. Storytelling Josephine Sherman, 2015-03-26 Storytelling is an ancient practice known

in all civilizations throughout history Characters tales techniques oral traditions motifs and tale types transcend individual cultures elements and names change but the stories are remarkably similar with each rendition highlighting the values and concerns of the host culture Examining the stories and the oral traditions associated with different cultures offers a unique view of practices and traditions Storytelling An Encyclopedia of Mythology and Folklore brings past and present cultures of the world to life through their stories oral traditions and performance styles It combines folklore and mythology traditional arts history literature and festivals to present an overview of world cultures through their liveliest and most fascinating mode of expression This appealing resource includes specific storytelling techniques as well as retellings of stories from various cultures and traditions

Studies in the Islamic Arts of the Book Robert Hillenbrand,2012-12-31 The studies collected in this volume some of them rather difficult of access date mostly from the last fifteen years and focus primarily on Persian book painting of the 14th to the early 16th centuries In this period Iran dominated the art of book painting in the Islamic world The articles reprinted here examine various aspects of this the golden age of Persian painting They range from the period of Mongol rule when the impact of Far Eastern themes and modes radically transformed the heritage bequeathed to Iran by Arab painting a textbook case of the clash of civilisations to the dawn of the modern era and the swansong of the classical style of Persian painting under the early Safavids Yet other articles focus on the roots of book painting in the themes and styles developed in painted ceramics on medieval Qur'anic calligraphy on bookbinding and on the remarkably original variations played on the hitherto hackneyed theme of the figural frontispiece by Arab painters Two major leitmotifs are explored in this selection of essays One is provided by the constantly varying interpretations of the Shahnama The Book of Kings the Persian national epic and especially the tendency of painters to interpret this familiar text in terms of contemporary politics The other is the interplay of text and image which highlights the tendency of painters to strike out on their own and to leave the literal text progressively further behind while they develop plots and sub plots of their own These enquiries are set within the context of a concerted effort to explore in detail how Persian painters achieved their most spectacular visual effects In its combination of general surveys and closely focused analyses of individual manuscripts this collection of articles will be of interest to specialists in book painting and in Islamic art as a whole

Dancing at the Dead Sea Alanna Mitchell,2004 Dancing at the Dead Sea is a powerful narrative on the critically important topic of the world's environmental hotspots. This is not a pessimistic tirade but instead a factual commentary that will convince many written by a gifted writer with an independent mind. I recommend this book without reservation. Richard Leakey Alanna Mitchell winner of the Global Reuters IUCN media award for excellence in environmental reporting embarks on an incredible worldwide cultural and environmental odyssey zeroing in on environmental hotspots and examines how we can live even flourish without destroying the planet. One hundred and fifty years after the publication of *The Origin of Species* Mitchell retraces the development of evolutionary theory grappling with Richard Leakey's contention that the extinction of the human species is well under way. How and why are we human beings shortening our time on Earth. Travelling to the last living Eden Madagascar Mitchell is witness to the destruction of all but 10 percent of the original forest not due to industrial activity but woodcutting by a primitive society still dependent on fire as its main energy resource. She then moves on to the badlands of Alberta where she draws on the theory of world famous paleontologist Philip Currie and the extinction of dinosaurs to gain insight on humanity's own impending suicide. Travel to the Azraq Oasis in Jordan the meeting place of Africa Asia and Europe the mythical Galapagos Islands seemingly unspoiled but not immune to degradation the far north and the Arctic desert of Banks Island one of the first places on Earth where climate change with global impact is visible. Like the work of Wade Davis or books such as *Krakatoa* by Simon Winchester and *Four Wings and a Prayer* by Sue Halpern. *Dancing at the Dead Sea* intertwines scientific theory with travel adventure and history creating a dramatic fresh narrative voice examining not the origin but the ultimate fate of the human species April 2004
