## Myths Emblems Clues:

*Myths, Emblems, Clues* Carlo Ginzburg, 1990      *Myths, Emblems, Clues* Carlo Ginzburg, 1990 Estos estudios del autor exploran los símbolos, mitos y creencias en la historia europea. A través del juicio de una mujer acusada de brujería en Medina en 1519 va descubriendo las cosas en las que la religión oficial modela la piedad popular hacia caminos más ortodoxos.

**With(Out) Trace: Interdisciplinary Investigations into Time, Space and the Body** Simon Dwyer, Rachel Franks, Reina Green, 2019-07-22 This volume was first published by Interdisciplinary Press in 2015. This book, *Without Trace: Interdisciplinary Investigations into Time, Space and the Body*, unpacks many of the issues that surround the idea of trace: what we intentionally and unintentionally leave behind as well as how trace can help us to move forward. In particular, this volume looks at how an interdisciplinary approach can suggest new ways of seeing and subsequently exploring interconnections between time, space and the body. The papers within this work accomplish more than tracing a theme; a theory or discipline within the study of time, space and the body. Moreover, the collection does not simply trace past debates about the relationship between the three. Indeed, the interdisciplinarity of this collection will, it is hoped, suggest other ways of seeing the field and of tracing new paths through it. Exploring those new perspectives and new paths will undoubtedly enrich future thinking about the interconnections between time, space and the body.      *Reading Witchcraft* Marion

Gibson, 2005-08-08 In this original study of witchcraft, Gibson explores the stories told by and about witches and their victims through trial records, early news books, pamphlets and fascinating personal accounts. The author discusses the issues surrounding the interpretation of original historical sources and demonstrates that their representations of witchcraft are far from straightforward or reliable. Innovative and thought-provoking, this book sheds new light on early modern people's responses to witches and on the sometimes bizarre flexibility of the human imagination.      *Apollo's Eye* Denis

Cosgrove, 2003-10-17 Cosgrove's analysis traces a pattern of associations between global images and the formation of Western identities, paying tribute to the richly complex cosmographic tradition out of which today's geographical imagination has emerged. **BOOK JACKET      *A People's History of Science*** Clifford D. Conner, 2009-04-24 We all know the history of science that we learned from grade school textbooks: How Galileo used his telescope to show that the earth was not the

center of the universe; how Newton divined gravity from the falling apple; how Einstein unlocked the mysteries of time and space with a simple equation. This history is made up of long periods of ignorance and confusion, punctuated once in a while by a brilliant thinker who puts it all together. These few tower over the ordinary mass of people, and in the traditional account it is to them that we owe science in its entirety. This belief is wrong. *A People's History of Science* shows how ordinary people participate in creating science and have done so throughout history. It documents how the development of science has affected ordinary people and how ordinary people perceived that development. It would be wrong to claim that the formulation of quantum theory or the structure of DNA can be credited directly to artisans or peasants, but if modern science

is likened to a skyscraper then those twentieth century triumphs are the sophisticated filigrees at its pinnacle that are supported by the massive foundation created by the rest of us      *Reader's Guide to the History of Science* Arne Hessenbruch, 2000 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company      New Comparison , 1998      Arts & Humanities Citation Index , 2002      Photographs at the Frontier Nicholas Mann, Benedetta Cestelli Guidi, 1998 These largely unpublished photographs some only recently discovered were taken by Aby Warburg on his trip to the American frontier in 1895 Neither a photographer nor a native tourist Warburg was a scholar with a camera As seen through his own cultural and psychological perspective on art these insightful photographs are significant not only to the study of Native American and frontier life but also to an understanding of Warburg's unique vision of cultural history 80 duotone photos      *Love and Marriage in Renaissance Florence* Caroline Campbell, 2009 Accompanying an exhibition at The Courtauld Gallery this catalogue explores one of the most important and historically neglected art forms of Renaissance Florence cassoni pairs of chests that were lavishly decorated with precious metals and elaborate paintings and were often the most expensive of a whole suite of decorative objects commissioned to celebrate marriage alliances between powerful families      *Whitaker's Books in Print* , 1990      **Logic in a Popular Form** Sumanta Banerjee, 2002 Taking its title from Karl Marx's description of religion as the general theory of this world and its logic in a popular form this volume of essays explores the hidden logic behind the popular construction of certain myths beliefs about godlings and spirits and cross religious cults viewing them as popular inventions attempting to make sense of human existence in the face of an overwhelming and often hostile environment These religious manifestations of popular logic ranging from Kali to Radha Krishna to Satyapir to Tantrik practice are fluid ever changing and always innovative They represent an alternative stream running parallel to and often challenging the more strictly structured beliefs and practices of the Indian religious establishments whether Hindu Islamic or Christian The essays in the present collection are an attempt to rediscover some of the important aspects of this multi faceted phenomenon of popular religion in the context of nineteenth century Bengal including tracing the impact of urbanization colonialism and nationalism They also try to re examine the relevance of some of the beliefs and rituals that have flowed down from that past and continue to survive in Bengali society today Sumanta Banerjee is a cultural historian who specializes in research into popular culture particularly of the colonial period His best known works include *The Simmering Revolution* *The Naxalite Uprising* *The Thema Book of Naxalite Poetry* *The Parlour and The Streets* *Elite and Popular Culture in Nineteenth Century Calcutta* and *Dangerous Outcast The Prostitute in Nineteenth Century Bengal*      Under the Devil's Spell Matteo Duni, 2007-11-07 This book reconstructs the activity of the tribunal of the faith in the northern Italian states during the period 1400 1600 analyzing the ideology of its judges and taking a closer look at the Italian witches and their clientele For the first time the English language reader will be offered direct access to this little known world through a large selection of translated Inquisition trials from the rich State Archives of Modena Students

of early modern culture and religion will discover how magic was employed habitually through a wide variety of composite spells and enchantments Folklore Catholic ritual and books of demonic conjurations offered wizards and healers countless sources of inspiration for their practices Readers interested in social and gender history will learn how magic and witchcraft comprised an integral part of daily life in early modern Italy They were a means for contact and communication between diverse worlds where wealthy aristocrats and petty shopkeepers refined intellectuals and crafty prostitutes rich bishops and clever priests all rubbed shoulders while attempting to improve their lot by magical means BOOK JACKET Gombrich on Art and Psychology Richard Woodfield,1996 *Rethinking African History* Christopher Fyfe,1997 Explorations in Social Theory and Philippine Ethnography Raul Pertierra,1997 Law as Communication David Nelken,1996 This work offers some theoretical views on how law and society intersect It looks at the fragmentation of sociology the dissolution of anthropological authority and the challenge of postmodern and literary trends of argumentation It asks how can the law communicate across boundaries **Philippine Sociological Review** ,2007 The Italian Jewish Experience Thomas P.
