Brown, 2012-12-06 Remarks by JVS Volumes 1 and 2 of Feldspar Minerals were published in 1974 but Volume 3 was not completed because I was forced to devote 3 years to the resolution of unforeseen problems in the construction of an ion probe By 1977 the incomplete draft for Volume 3 had become obsolete because of the enormous advances in knowledge of feldspars particularly those in lunar rocks and meteorites and in both deep seated and ancient terrestrial rocks Furthermore it soon became obvious that a completely new version of Feldspar Minerals was needed because of the important new results on the physical and chemical properties I had kept up with the interesting but tedious chore of weekly reading of the incoming literature and maintenance of the files By 1980 the intense day to day pressure had gone from my research

programs on lunar rocks and on the development of the ion microprobe as a quantitative geochemical instrument and I began preparation of a second edition of Feldspar Minerals
