**An Informal History of the Hugos** Jo Walton, 2018-08-07 A collection of essays about

science fiction's most revered award revealing the story of the genre's evolution from the award winning author The Hugo Awards named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society have been presented since 1953. They are widely considered the most prestigious awards in science fiction. Between 2010 and 2013 Jo Walton wrote a series of posts for Tor.com surveying the Hugo finalists and winners from the award's inception up to the year 2000. Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time. Engaged, passionate and consistently entertaining An Informal History of the Hugos presents Walton's cheerfully opinionated and vastly well informed posts which provoked valuable conversation among the field's historians. Now these posts lightly revised have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton Gardner Dozois and David G Hartwell.
