NAFTA and Foreign Investment in Mexico Alison Marie Boelter,2009 ABSTRACT This study examines NAFTA s role in attracting and maintaining foreign investment in Monterrey In light of the difficulty in separating the effects of NAFTA from other influences many argue that influxes in foreign investment are not a direct result of the free trade agreement but rather a combination of factors such as globalization and economic reforms designed to aid Mexico recover from its national debt

crises A case study approach of five U S based companies in Monterrey was employed to determine if NAFTA was the main or one of the main reasons for expansion to Mexico Additional key informants within governmental organizations were utilized to assess the investment environment in Monterrey and the likelihood that NAFTA was a strong influence Economic data were collected to compare total levels of investment in Mexico both before and after the implementation of NAFTA as well as levels of U S based investment The study revealed that NAFTA has in fact been successful at drawing foreign investment to Monterrey both directly and indirectly Although Chapter 11 was not cited by interviewees my research findings demonstrate that it underpinned the willingness of investors to come to Mexico because its trade protections made investment secure and profitable **Business America** ,1993 Includes articles on international business opportunities

Environment, Human Rights and International Trade Francesco Francioni,2001-07-13 After the completion of the Uruguay Round and the adoption of the 1994 agreement establishing the WTO the place of international trade in the context of the international legal order has radically changed International trade law has become a subject of wide spread interest cutting across traditional boundaries and engaging diverse political and legal concerns One consequence of this development is increasing concern with the legitimacy of the WTO process which in turn has led to the WTO becoming the focus of rancorous protest by among others environmental NGOs trade unions and human rights activists This collection of essays by leading scholars and lawyers engaged in the policy making process addresses the underlying tensions and dilemmas of the WTO process and its impact upon the environment and human rights in particular The contributors search for a balance between on the one hand legitimate free trade interests and on the other the role and limits of unilateral measures as an instrument to protect non commercial values The essays thus range over a host of topical questions including trade in GMOs biosafety in intellectual property rights technology transfer and environmental protection trade and labour rights child labour standards the EU and WTO MERCOSUR and many other topics The contributors include Thomas Schoenbaum Andrea Bianchi Chris McCrudden Michael Spence Sarah Cleveland Patricia Hansen Riccardo Pavoni and Francesco Francioni

**The Journal of World Investment & Trade** ,2006 **NAFTA** John H. Mutti,2001 **Lessons from NAFTA** Daniel Lederman,William Francis Maloney,William F. Maloney,Luis Serven,2005 Analyzing the experience of Mexico under the North American Free Trade Agreement NAFTA the authors draw lessons for other countries considering free trade agreements with the United States The authors conclude that NAFTA raised external trade and foreign investment inflows and had a modest effect on Mexico's average income per person It is likely that NAFTA also helped achieve a modest reduction in poverty and an improvement in job quality However major obstacles remain to Mexico's long term development NAFTA is not enough The main lesson for other countries is that free trade agreements offer opportunities to accelerate economic growth but do not guarantee it **Manual of Foreign Investment in the United States** J.
