## **Namibia Under South African Rule:**

**Namibia Under South African Rule** Patricia Hayes, 1998 The peoples of Namibia have been on the move throughout history. The South Africans took over from the Germans in 1915 in trying to fit them into a colonial landscape. This book is about the clashes and stresses which resulted from the determined efforts at containment during the first three decades of South African colonial rule.

**Re-examining Liberation in Namibia** Henning Melber, 2003 From 1960 SWAPO of Namibia led the organised and later armed struggle for independence. In late 1989 the liberation movement was finally elected to power under United Nations supervision as the legitimate government. When the Republic of Namibia was proclaimed on 21 March 1990 the long and bitter struggle for sovereignty came to an end. This volume takes stock of emerging trends in the country's political culture since independence. The contributions mainly by authors from Namibia and Southern Africa who supported the anti-colonial movements critically explore the achievements and shortcomings that have been part of liberation in Namibia. Henning Melber was Director of the Namibian Economic Policy Research Unit (NEPRU) in Windhoek between 1992 and 2000 and has been Research Director at The Nordic Africa Institute since then. He coordinates the research project on Liberation and Democracy in Southern Africa of which this volume is part.

**Colonialism** Melvin E. Page, 2003-09-16 The most exhaustive reference work available on this critical subject in world history focusing on the politics, economy, culture and society of both colonizers and colonized. The history of the last 500 years is the history of imperialism writes editor Melvin Page. In the Americas as a result of imperialist conquest, disease, famine and war nearly wiped out a population estimated in the tens of millions. Africa was devastated by the slave trade an integral part of imperialism from the 1400s to the 1800s. In Asia even though native populations survived native political institutions were destroyed. Imperialism also forged the two most important ideologies of the last five centuries racialism and modern nationalism. In more than 600 essays presented in this three volume encyclopedia Page and other leading scholars, historians, political scientists, economists and sociologists analyze the origins of imperialism, the many forms it took and its impact worldwide. They also explore imperialism's bitter legacy the gross inequities of global wealth and power that divide the former conquerors primarily Europe, the United States and Japan from the people they conquered.

**Airpower in Small Wars** James S. Corum, Wray R. Johnson, 2003 The use of airpower in wartime calls to mind the massive bombings of World War II but airplanes have long been instrumental in small wars as well. Ever since its use by the French to put down rebellious Moroccan tribes in 1913 airpower has been employed to fight in limited but often lengthy small conflicts around the globe. This is the first comprehensive history of airpower in small wars conflicts pitting states against non-state groups such as insurgents, bandits, factions and terrorists tracing it from the early years of the twentieth century to the present day. It examines dozens of conflicts with strikingly different scenarios the Greek Civil War, the Philippine Anti-Huk campaign, French and British colonial wars, the war in South Vietnam before the American escalation, counterinsurgency in southern Africa.

Latin American counterguerrilla operations and counterinsurgency and counterterrorist campaigns in the Middle East over the last four decades. For each war the authors describe the strategies employed on both sides of the conflict the air forces engaged and the specific airpower tactics employed. They discuss the ground campaigns and provide the political background necessary to understand the air campaigns and in each case they judge the utility of airpower in its broadest sense. In their historic sweep they show how forms of airpower evolved from planes to police helicopters aircraft of the civilian air reserve and today's unmanned aircraft. They also disclose how small wars after World War II required new strategies operational solutions and tactics. By taking this broad view of small war airpower the authors are able to make assessments about the most effective and least effective means of employing airpower. They offer specific conclusions ranging from the importance of comprehensive strategy to the need for the United States and its allies to expand small wars training programs. Airpower in Small Wars will be invaluable for educating military professionals and policy makers in the subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty first century.

**The Colonising Camera** Wolfram Hartmann, Jeremy Silvester, Patricia Hayes, 1999 Richly illustrated with black and white photographs this book brings together provocative and exciting new material on Namibia's colonial past. An eight page colour section looks at how present day Namibians view themselves. It includes contributions from the editors Wolfram Hartmann, Jeremy Silvester and Patricia Hayes as well as Michel Bollig, Jan Bart, Gewald Robert, Gordon, Brent Harris, Paul Landau, Rick Rohde, Margo Timm and Marion Wallace.

Employee Voice in Emerging Economies Amanda Pyman, Paul J. Gollan, Adrian Wilkinson, Cathy Xu, Senia Kalfa, 2016-12-15 While much is known about employee voice in the developed world much less is known about its operation in emerging economies. This volume explores the nature of employee voice in Argentina, China, India and South Korea providing a timely challenge to the predominant assumptions that underline our knowledge of employee voice in the Western world.

**Popular Resistance and the Roots of Nationalism in Namibia, 1915-1966** Tony Emmett, 1999 The book explores the social forces that shaped the development of a movement of national liberation in Namibia. It provides the original analyses of the Bondelswarts and Rehoboth rebellions, the Garveyite and troop movements, the contract labour system and the formation of the modern African parties SWAPO and SWANU.

**Modern Genocide** Paul R. Bartrop, Steven Leonard Jacobs, 2014-12-17 This massive four volume work provides students with a close examination of 10 modern genocides enhanced by documents and introductions that provide additional historical and contemporary context for learning about and understanding these tragic events. Modern Genocide: The Definitive Resource and Document Collection spans nearly 1 700 pages presented in four volumes and includes more than 120 primary source documents making it ideal for high school and beginning college students studying modern genocide as part of a larger world history curriculum. The coverage for each modern genocide from Herero to Darfur begins with an introductory essay that helps students conceptualize the conflict within an international context and enables them to better understand

the complex role genocide has played in the modern world There are hundreds of entries on atrocities organizations individuals and other aspects of genocide each written to serve as a springboard to meaningful discussion and further research The coverage of each genocide includes an introductory overview an explanation of the causes consequences perpetrators victims and bystanders the international reaction a timeline of events an Analyze section that poses tough questions for readers to consider and provides scholarly pro and con responses to these historical conundrums and reference entries This integrated examination of genocides occurring in the modern era not only presents an unprecedented research tool on the subject but also challenges the readers to go back and examine other events historically and consequently consider important questions about human society in the present and the future The Culture of Power in Southern Africa

Clifton C. Crais,2003 This collection of essays significantly refines the way we think about state and society in the British Southern Africa of the 19th and 20th centuries from the conquest of the Transkei and Natal to contemporary Botswana and Zimbabwe The essays embody a range of disciplinary perspectives including anthropology history and historical sociology Yet they share a set of theoretical and empirical concerns united by an interesting understanding the culture of power and the power of culture at Africa s southern tip South Africa at War Richard Leonard,1983 In South Africa at War the first carefully documented survey and analysis of the policies and actions of the government of South Africa under P W Botha Richard Leonard shows that the enduring effect of the attempt to preserve apartheid has been to increase the militarization of the country He traces the travail of the African National Congress and shows that black resistance to apartheid has gone from peaceful protest to militant confrontation He documents South African military and financial involvement in the conflicts in Namibia Angola and Zimbabwe and evaluates the societal stresses induced by the need to maintain and expand the armed forces There is a searching presentation of the propaganda war undertaken by the government in an effort to influence attitudes toward South Africa and an analysis of the total strategy that guides the Botha government in the coordination and implementation of its policies Namibia, a Study in the Process of Decolonization Rachna Srivastava,1994

American-Southern African Relations Mohamed A. El-Khawas,Francis A. Kornegay,1975 Annotated bibliography on the role of USA in international relations with Southern Africa covers foreign policy of the USA with regard to rhodesia Zimbabwe and Namibia United States foreign investments in southern africa the role of American Black interest groups etc History of Southern Africa Kevin Shillington,2005 Getting the Lion's Share from Tourism: Inventory of tourism partnerships in Namibia Dilys Roe,Maryanne Grieg-Gran,Wouter Schalken,2001

**Senior African History of Central and Southern Africa** Anastasia Kasoma,1993 **The International Journal of African Historical Studies**,2000 Transitions in Namibia Henning Melber,2007 This volume completes the research project on Liberation and Democracy in Southern Africa LiDeSA It mainly addresses socioeconomic and gender related issues in contemporary Namibia Most of the contributors are either Namibian based in Namibia or have undertaken extensive research in the

country Their interest as scholars and or civil society activists is guided by a loyalty characterised not by rhetoric but by empathy with the people They advocate notions of human rights social equality and related values and norms instead of being driven by an ideologically determined party political affiliation Their investigative and analytical endeavours depict a society in transition a society that is far from being liberated Not surprisingly this compilation explores the limits to liberation more than its advances *Health, Power and Politics in Windhoek, Namibia, 1915-1945* Marion Wallace,2002 In this book The Author explores the coloniel health care system in Windhoek She examines the develoment of hospitals public health policies and mossionary nursing analysing the dynamics of race gender and class that shaped them and at the same time building a history of African experience in the capital **South West Africa-Namibia** Peter Duignan,Lewis H. Gann,1978 Book also includes table Political and semi political groupings in South West Africa in August 1976 p 18 19 *Africa Today* ,2005
