Hungry Hearts Joseph Nowinski, 1993 Millions of men in this country are addicted to alcohol or drugs to sex work food or gambling A poor substitute for comfort self confidence and spirituality all addictions have the power to destroy lives relationships and families Although women too may suffer from addictions the ratio of men to women enrolled in treatment programs for alcohol or drug abuse is roughly three to one And in a survey of

the population at large men were five times as likely as women to be diagnosed as alcohol dependent Why are men so much more vulnerable to addiction What do addictions as different as sex alcohol cocaine and work have in common What can men do to escape from the throes of addiction and the addictive tendencies within themselves In *Hungry Hearts* Joseph Nowinski reveals that addiction is the result of emotional desperation which as much as any craving is responsible for addicts relapsing or trading one addiction for another Venturing beyond the common theory that men's greater susceptibility to addiction is genetic he points instead to society's long held belief in and exaggeration of men's resilience and toughness at the expense of their sensitivity It is an accident of history that men are often viewed as insensitive and emotionally tough Nowinski asserts and that myth has contributed to the insecurity and isolation that drive men toward addiction Through an in depth examination of the social psychological and historical perspectives on men and addiction Nowinski offers a new model for men to rebuild their self esteem and truly open themselves to intimacy For men who suffer from an addiction and for those who care for them both personally and professionally *Hungry Hearts* is an essential book

Family Recovery and Substance Abuse Joseph K. Nowinski, 1999 This book details a structured research based approach to working with the significant others of substance abusers The approach called Unilateral Family Therapy offers partners and family members hope not only of improving their own mental health but also teaches how to restructure their relationship to the substance abuser in ways which could enhance the substance abuser's motivation to change and lead him or her to treatment
