Narrating History Developing Doctrine:

Narrating History, Developing Doctrine Bradford E. Hinze, 1993 Bradford E Hinze offers a comprehensive comparative investigation of the theologies of Reformed theologian Friedrich Schleiermacher 1768-1834 and Catholic Johann Sebastian Drey 1777-1853. Although they represented different theological traditions both theologians contributed to the emergence of doctrinal development as a theological principle. Particular attention is paid to the effect of metaphor and narrative patterns especially as these informed Schleiermacher's and Drey's understanding of historiography, hermeneutics and the tasks of theology. The book concludes with a review of specific doctrines the two theologians judged to be in need of criticism, reform and development.

In Defense of Doctrine Rhyne R. Putman, 2015 *In Defense of Doctrine* is an apologetic for the ongoing constructive theological task in Protestant and Evangelical traditions. It suggests that doctrinal development can be explained as a hermeneutical phenomenon and that insights from hermeneutical philosophy and the philosophy of language can aid theologians in constructing explanatory theses for particular theological problems associated with the facts of doctrinal development. Joining the recent call to theological interpretation of Scripture Putman provides a constructive model that forwards a descriptive and normative pattern for reading Scripture and theological tradition together.

Hermeneutics of Doctrine in a Learning Church Gregory A. Ryan, 2020-08-10 *In Hermeneutics of Doctrine in a Learning Church* Gregory A. Ryan offers an account of the dynamic multi-dimensional task of interpreting Christian tradition. He integrates doctrinal hermeneutics, the pastorality of doctrine exemplified by Pope Francis and a systematic appraisal of Receptive Ecumenism to provide an original perspective on this task. The book focuses on three contemporary Catholic theologians Francis Schüssler Fiorenza, Ormond Rush and Paul D. Murray, highlighting how each recognises the dynamic interaction of multiple perspectives involved in authentic ecclesial interpretation. Christian tradition whether passed on in teaching, scripture practices or structures needs to be continually received and interpreted. This book offers theologians, ecumenists and church workers a fresh model for receptive ecclesial learning in which doctrinal hermeneutics and pastoral realities are dynamically integrated.

Senses of Tradition John E. Thiel, 2000-09-21 This book articulates a theory of Catholic tradition that departs from previous understandings. Drawing on the medieval concept of the four-fold sense of scripture John Thiel proposes four interpretive senses of tradition. He also offers a theory of doctrinal development that

reconciles Catholic belief in apostolic authority and continuity of tradition with a critical approach to the evidence of history
