Romantic motif of the Double in a manner consistent with the central dictum of Poetic Realism as articulated by its chief theorists Julian Schmidt and Otto Ludwig Schmidt and Ludwig argued that contemporary authors should above all strive for psychological and aesthetic totality in their narrative representations turning away from the Romantic fantastic but also avoiding the fragmentary approach to the portrayal of everyday life that Ludwig found in early Naturalism The poetic presentation of reality adheres to quotidian life but strives to show it in all its many dimensions While Romantic Doppelgänger are often preternatural figures the Poetic Realists configure egos and their narrative Others alter egos who are also sometimes physical Doubles to portray characters in their psychological comprehensiveness After offering an overview of the Romantic Double motif and its connections to the theory of Poetic Realism John Pizer analyzes the work of Annette von Droste Hülshoff Otto Ludwig Conrad Ferdinand Meyer Gottfried Keller Theodor Storm and Wilhelm Raabe

Anke Gleber examines one of the most intriguing and characteristic figures of European urban modernity the observing city stroller or flâneur In an age transformed by industrialism the flâneur drifted through city streets inspired and repelled by the surrounding scenes of splendor and squalor Gleber examines this often elusive figure in the particular contexts of Weimar Germany and the intellectual sphere of Walter Benjamin with whom the concept of flânerie is often associated She sketches

the European influences that produced the German flaneur and establishes the figure as a pervasive presence in Weimar culture as well as a profound influence on modern perceptions of public space The book begins by exploring the theory of literary flânerie and the technological changes street lighting public transportation and the emergence of film that gave a new status to the activities of seeing and walking in the modern city Gleber then assesses the place of flânerie in works by Benjamin Siegfried Kracauer and other representatives of Weimar literature arts and theory She draws particular attention to the works of Franz Hessel a Berlin flaneur who argued that flânerie is a reading of the city that perceives passersby streets and fleeting impressions as the transitory signs of modernity Gleber also examines connections between flânerie and Weimar film and discusses female flânerie as a means of asserting female subjectivity in the public realm The book is a deeply original and searching reassessment of the complex intersections among modernity vision and public space
