**The New World in Early Modern Italy, 1492-1750** Elizabeth Horodowich,Lia Markey,2017-11-16 This volume considers Italy's history and examines how Italians became fascinated with the New World in the early modern period

**Naked and Alone in a Strange New World** Benjamin Mark Allen,2009-10-02 Naked and Alone is a comparative analysis of early modern captivity narratives that chronicle the harrowing experiences of a few Iberians and one Hessian in the New World during the century of exploration and colonization Included among them are the tales of Hernando de Aguilar and Gonzalo Guerrero Ivar Núñez Cabeza de Vaca Juan Ortiz Hans Stade and Francisco Núñez de Pineda y Bascuñán After years of captivity that stripped the unfortunate men of their cultural identity they eventually reunited with their countrymen to relate and record tales that rivaled the heroic epics The authors thus provided most Europeans with a first glimpse into exotic New World societies considered strange and perhaps even diabolical by the colonizers At the same time most contemporaries used the narratives as justification for imperial prerogatives although the captives themselves came away with a deeper understanding of and appreciation for their Indian captors Although considered by some early historians as reliable texts the captivity narratives are rejected by this author as historically accurate depictions of the experiences faulty memories contemporary myth and the authors subjectivity greatly impeded the veracity He instead argues that the texts are cultural artifacts that offer useful insight to the mentalities of the age In order to construct a *histoire des mentalités* the author incorporates anthropological perspectives of myth and employs textual contextual analysis to unlock the deeper meanings often obscured by the literary imagery What results is an interpretation that aids understanding of sixteenth century peoples and societies and of the postcolonial American cultures most directly influenced by them

[Out of the Melting Pot, Into the Fire](#) Jens Kurt Heycke,2023-04-11 The melting pot has been the prevailing ideal for integrating new citizens through most of America's history yet contemporary elites often reject it as antiquated and racist Instead they advocate multiculturalism which promotes ethnic boundaries and distinct group identities Both models have precedents across the centuries as Jens Heycke demonstrates in a contribution to the debate that incorporates an international historical perspective Heycke surveys multiethnic polities in history focusing on societies that have shifted between the melting pot and multicultural models Beginning with ancient Rome he demonstrates the appeal of a unifying syncretic identity that diverse individuals can join regardless of their ethnic or racial origins He details how early Islam with its ideal of an inclusive ummah integrated diverse groups and even different faiths into a cohesive and flourishing society Both civilizations eventually abandoned their integrative ideals in favor of a multicultural paradigm The consequences of that paradigm shift are instructive for societies

that seek to emulate it In the modern era many nations have implemented multicultural policies like group preferences to compensate for past injustices or current disparities Heycke examines some notable examples Yugoslavia Rwanda and Sri Lanka These nations were on a rough trajectory toward ethnic tolerance and comity a trajectory that multicultural policies altered dramatically They contrast with Botswana a country that opposes group distinctions so resolutely that it prohibits the collection of racial and ethnic statistics Since World War II ethnic conflicts have killed over ten million people But the consequences of ethnic division go far beyond that Heycke analyzes those consequences in an international statistical survey of ethnic fractionalization This survey combined with the extensive historical record of multiethnic societies illustrates the staggering costs of accentuating group differences and the benefits of a unifying identity that transcends those differences
