*The Mystic* John E. Knight, 2010 Ted Gregory is a stock broker barely hanging in with the flow of life A morning ride to work turns into a trip that takes Ted back in time to visit an old diner which he had not been in for decades The diner still exists almost as in a time warp A series of impulsive decisions sends Ted off on a new journey both physically and metaphorically The Mystic is a stranger sitting alone in a coffee shop waiting for Ted or anyone to engage him in conversation The mystic who teaches others has to be a master of using metaphor and parable to explain concepts Mystery surrounds mysticism but in reality it can help provide a practical guide for positive transformation in any person s life Mysticism has room for sceptics and scientists In fact the scientists with great new ideas and theories have to walk the mystic s path into the realms of the metaphysical

**The Mystical Desk** Ginger M. Vickers, 2005-10-03 [The Dream Assassin Volume \(1\)](#) Roman Harambura, 2019-02-20 Humanity s Greatest Gift Imagination Roman expresses that we as humans have the ability to think by thought power as humans on this most precious Earth we each have the power within us to create through manifestation anything we choose simply by the power of our own thoughts Roman believes we are all thinking beings that every thought we each have has the possibilities of becoming our own reality be it negative thoughts or positive thoughts which in turn creates our personal existence either in a negative way or a positive way he says we are not in reality physical it only appears to be that way because we are so highly conditioned by our own beliefs systems we are in fact Living Energy in the making of becoming Living Consciousness The main reason he wrote

and created his new book *The Dream Assassin* was to show all of humanity that Imagination is real and at the same time create magnificent imaginative magic that would not only bring awareness but ignite the true inner passion of every individual that reads this book but also to see the movie when it is created in the future to come As Albert Einstein the great Theoretical Physicist said on many occasions Reality is merely an Illusion all be it a very persistent one It s like saying just because you cannot touch something doesn t mean it is not real because it may be vibrating simply at another level of consciousness
