W. Lake,2015-06-26 Excerpt from The Mythos of the Ark It is recorded in the Hebrew scriptures that once upon a time somewhere about 2400 years before the Christian era the Creator of the world was so incensed at the wickedness of men that he determined to destroy the whole world and that to effect this destruction he sent a deluge on the earth which covered the tops of the highest mountains so that all living things perished excepting only Noah his wife and his three sons and their wives with pairs or sevens of all the various kinds of animals which Noah was commanded to take with him into an ark or floating house which God had commanded him to build These were shut up in the ark for several months when the flood having abated the ark grounded on the top of a high mountain and its inhabitants released from their temporary imprisonment replenished the earth with a new race of living creatures We have said the Hebrew scriptures record this narrative and Englishmen are taught to believe that these scriptures are the infallible word of God so the clergy of almost all denominations declare them to be It is evident that such an event had it really happened could never have become a legitimate part of history It relates altogether to times that are prehistoric times of which oral tradition alone could tell About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Mythos of the Ark** J. Mundler, 2022 Breaks new ground by both analyzing the literary qualities of four recent rewritings of the Noah myth and contextualizing their concern with climate change within the wider crises of the Anthropocene. With the rise of concern about global warming in recent years climate change fiction or cli fi has become increasingly important both as a publishing phenomenon and as an area of academic study and research. Flood narratives have become a subsection of cli fi in their own right. This book proposes new readings of four recent rewritings of the Noah myth: *Odds Against Tomorrow* by Nathaniel Rich, *Margaret Atwood's Maddaddam* trilogy, *When the Floods Came* by Clare Morrall and *The Flood* by Maggie Gee. Helen E. Mundler's book takes into account the wealth of criticism that has appeared on these texts in recent years, acknowledging important contributions from critics including Adam Trexler, Adeline Johns Putra and Astrid Bracke. However, her book's strength is that it takes a new approach going beyond the topicality of the texts and treating them not just as ideological statements but giving them their due as literary artifacts. While the importance of climate change is beyond debate, this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene. *y* of the texts and treating them not just as ideological statements but giving them their due as literary artifacts. This book demonstrates how early Chinese stories of the re-creation of the world from a watery chaos provided principles underlying such fundamental units as the state, lineage, the married couple and even the human body. These myths also supplied a charter for the major political and social institutions of Warring States (481-221 BC) and early imperial (220 BC-AD 220) China. In some versions of the tales the flood was triggered by rebellion while other versions linked the taming of the flood with the creation of the institution of a lineage and still others linked the taming to the process in which the divided principles of the masculine and the feminine were joined in the married

couple to produce an ordered household While availing themselves of earlier stories and of central religious rituals of the period these myths transformed earlier divinities or animal spirits into rulers or ministers and provided both etiologies and legitimation for the emerging political and social institutions that culminated in the creation of a unitary empire
