*Killing Civilization* Justin Jennings, 2016-04-15 The concept of civilization has long been the basis for theories about how societies evolve This provocative book challenges that concept The author argues that a civilization bias shapes academic explanations of urbanization colonization state formation and cultural horizons Earlier theorists have criticized the concept but according to Jennings the critics remain beholden to it as a way of making sense of a dizzying landscape of cultural variation Relying on the idea of civilization he suggests holds back understanding of the development of complex societies *Killing Civilization* uses case studies from across the modern and ancient world to develop a new model of incipient urbanism and its consequences using excavation and survey data from atlatl y k Cahokia Harappa Jenne jeno Tiahuanaco and Monte Albán to create a more accurate picture of the turbulent social political and economic conditions in and around the earliest cities The book will influence not just anthropology but all of the social sciences **The Journal of the Royal**

**Anthropological Institute**, 2004 Articles on all aspects of anthropology *Social Change* Christopher Chase-Dunn, Bruce Lerro, 2016-01-08 From the Stone Age to the Internet Age this book tells the story of human sociocultural evolution It describes the conditions under which hunter gatherers horticulturalists agricultural states and industrial capitalist societies formed flourished and declined Drawing evidence from archaeology ethnography linguistics historical documents statistics and survey research the authors trace the growth of human societies and their complexity and they probe the conflicts in hierarchies both within and among societies They also explain the macro micro links that connect cultural evolution and history with the development of the individual self thinking processes and perceptions Key features of the text Designed for

undergraduate and graduate social science classes on social change and globalization topics in sociology world history cultural geography anthropology and international studies Describes the evolution of the modern capitalist world system since the fourteenth century BCE with coverage of the rise and fall of system leaders the Dutch in the seventeenth century the British in the nineteenth century and the United States in the twentieth century Provides a framework for analyzing patterns of social change Includes numerous tables figures and illustrations throughout the text Supplemented by framing part introductions suggested readings at the end of each chapter an end of text glossary and a comprehensive bibliography Offers a web based auxiliary chapter on Indigenous North American World Systems and a companion website with excel data sets and additional web links for students      **Science** John Michels (Journalist),2005 A weekly record of scientific progress

*Journal of Anthropological Research* ,2008      **The Ancient City** Joyce Marcus,Jeremy A. Sabloff,2008-10-15 Ancient cities have much to tell us about the social political religious and economic conditions of their times and also about our own Ongoing excavations all over the world are enabling scholars to document intra city changes through time city to city interaction and changing relations between cities and their hinterlands As the essays in this volume reveal archaeologists now know much more about the founding and functions of ancient cities their diverse trade networks their heterogeneous plans and layouts and their various lifespans and trajectories Jacket      **Ancient Complexities** Susan M. Alt,2010 A current overview of what is meant by cultural complexity and how archaeologists study the development of complex societies in North America      **Leadership and Polity in Mississippian Society** Brian M. Butler,Paul D. Welch,2006 The contributors to this volume argue for a much richer view of variation in Mississippian leadership structures including variation in gender relations economic structure political institutions and religious organization than the often dichotomized view of simple vs complex chiefdoms      A History of the Ancient Southwest Stephen H. Lekson,2009 According to archaeologist Stephen H Lekson much of what we think we know about the Southwest has been compressed into conventions and classifications and orthodoxies This book challenges and reconfigures these accepted notions by telling two parallel stories one about the development personalities and institutions of Southwestern archaeology and the other about interpretations of what actually happened in the ancient past While many works would have us believe that nothing much ever happened in the ancient Southwest this book argues that the region experienced rises and falls kings and commoners war and peace triumphs and failures In this view Chaco Canyon was a geopolitical reaction to the Colonial Period Hohokam expansion and the Hohokam Classic Period was the product of refugee Chacoan nobles chased off the Colorado Plateau by angry farmers Far to the south Casas Grandes was a failed attempt to create a Mesoamerican state and modern Pueblo people with societies so different from those at Chaco and Casas Grandes deliberately rejected these monumental hierarchical episodes of their past From the publisher The second printing of A History of the Ancient Southwest has corrected the errors noted below SAR Press regrets an error on Page 72 paragraph 4 also Page 275 note 2 regarding absolute dates 50 000 dates was incorrectly published as
