Naked Tropics Kenneth Maxwell, 2013-10-15 In this volume distinguished historian Kenneth Maxwell collects some of his most significant writings following Portugal's imperial journey from the Atlantic to the Indian Ocean and from the coast of Asia to the mouth of the Red Sea Maxwell takes the reader on a lively journey from Macao to the Amazon forests each piece in the collection is a reflection of the authors driving passions Major themes he examines are the peopling of the Americas the shaking up of continents the spirit that took a precocious Portugal into its imperial venture the play between Portugal's extensive imperial reach into Africa and Asia and the Americas and the rise of Brazil and its tumultuous history **The Protectionist**, 1919 A monthly magazine of political science and industrial progress *Women's Suffrage in the Americas* Stephanie Mitchell, 2024-07-01 The first hemispheric study to trace how women in the Americas obtained the right to vote *Women's Suffrage in the Americas* pushes back against the misconception that women's movements originated in the United States The volume brings Latin American voices to the forefront of English language scholarship Suffragists across the hemisphere worked together formed collegial networks to support each other's work and fostered advances toward women gaining the vote over time and space from one country to the next The collection as a whole suggests several models by which women in the Americas gained the right to vote through party politics through decree despite delays justified by women's supposed conservative politics through conservative defense of traditional roles for women and within the context of imperialism However until now historians have traditionally failed to view this common history through a hemispheric lens
