Africa Today ,1985 **American Reference Books Annual** ,1986 1970 issued in 2 vols v 1 General reference social sciences history economics business v 2 Fine arts humanities science and engineering **Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion** Albert John Walford,Marilyn Mullay,Priscilla Schlicke,Library Association,1996 This new edition of Volume II last published in 1994 has been extensively expanded and revised in all areas Fully updated the new edition includes major changes and covers a span of topics from archaeology through medieval history to statistics It includes philosophy psychology religion social sciences geography biology and history All areas have been completely updated with additional material in economics business and management **Mission Namibia. Challenges and Opportunities for the Church in the 21st Century** Thorsten Prill (ed.),2012-10-24 Document from the year 2012 in the subject Theology Practical Theology language English abstract This book contains essays by NETS faculty members who bring with them a rich ministry experience in churches and para church organisations in Namibia and other countries Each essay is a sustained reflection on a particular aspect of Christian mission and ministry in Namibia and beyond Thorsten Prill looks at both the challenges and opportunities for the Church in Namibia He argues that para church organisations with their focus on evangelism church planting and theological training have a significant role to play In a second essay he identifies key issues in mission today and challenges churches mission organisations and mission partners to be caught up in a missionary movement with God Basilius Kasera demonstrates that the use of traditional African names for God as representatives of the God of the Bible is problematic as it leads to a distorted understanding of the biblical revelation Such an approach fails to distinguish clearly between the revelation of Yahweh and the idols Africans have always worshipped In a further article Basilius Kasera discusses the dangers of prosperity gospel teaching for the Namibian Church Simon Gillham argues that the models and assumptions behind theological education in Africa have been largely imported from the west Using the biblical metaphor of a tree representing spiritual maturity he explores what roots what fruits and what species of theological education might be most appropriate for the African context Victor Kuligin examines the general state of the Namibian Church in light of the well known statement that faith without deeds is dead He argues that there is a discrepancy between the claim of being a Christian country and the lifestyle and conduct of many Namibian church members He finds an answer for this disconnect in the second chapter of the New Testament letter of James Achim Rieger believes that local church leadership should be first and foremost trained in the local church given the socio economic conditions in Namibia He shows that the training strategy used by the apostle Paul can be a viable option for the Namibian Church Spencer Tijjenda examines the spiritual condition of the Herero Banderu people before and during the missionary period He argues that the evaluation of pioneer missionary Carl Hugo Hahn was not only true but was also motivated by deep concern and love for this Namibian people group an attitude that is still relevant for God s mission in Namibia today **Subject**
