## Naming Of Names:

*The Naming of Names* Anna Pavord,2008-12-07 The Naming of Names traces the search for order in the natural world a search that for hundreds of years occupied some of the most brilliant minds in Europe reaching its apex during the renaissance Anna Pavord takes us on a thrilling adventure into botanical history travelling from Athens in the third century BC through Constantinople Venice the medical school at Salerno to the universities of Pisa and Padua The journey traced here for the first time involves the culture of Islam the first expeditions to the Indies and the first settlers in the New World Gradually over a long period in Europe plants assumed identities and acquired names Artists painted the first pictures of them Plants acquired the two part names that show how they are related to other plants But who began all this work and how was it done Sumptuously illustrated in full colour The Naming of Names gives a compelling insight into a world full of intrigue and intensely competitive egos
