Nanny State:

Government Paternalism Julian Le Grand, Bill New, 2020-11-03 Should governments save people from themselves Do governments have the right to influence citizens behavior related to smoking tobacco eating too much not saving enough drinking alcohol or taking marijuana or does this create a nanny state leading to infantilization demotivation and breaches in individual autonomy Looking at examples from both sides of the Atlantic and around the world *Government Paternalism* examines the justifications for and the prevalence of government involvement and considers when intervention might or might not be acceptable Building on developments in philosophy behavioral economics and psychology Julian Le Grand and Bill New explore the roles boundaries and responsibilities of the government and its citizens Le Grand and New investigate specific policy areas including smoking saving for pensions and assisted suicide They discuss legal restrictions on risky behavior taxation of harmful activities and subsidies for beneficial activities And they pay particular attention to nudge or libertarian paternalist proposals that try to change the context in which individuals make decisions so that they make the right ones Le Grand and New argue that individuals often display reasoning failure an inability to achieve the ends that they set themselves Such instances are ideal for paternalistic interventions for though such interventions might impinge on autonomy the impact can be outweighed by an improvement in well being *Government Paternalism* rigorously considers whether the state should guide citizen decision making in positive ways and if so how this should be achieved

The Ethics of Public Health Paternalism T M Wilkinson, 2024-12-30 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations *The Ethics of Public Health Paternalism* is about policies that try to stop people damaging their own health From the point of view of public health advocates if people did not smoke or drank less alcohol or kept off junk food and sugary liquids they would tend to be healthier Hence such tactics as taxing tobacco restricting the sale of alcohol and limiting the density of fast food outlets Because these tactics appear to limit freedom of choice they are often pejoratively described as the actions of a nanny state that overvalues health and wrongly infringes on the autonomy of adults But many of us want to be healthy rather than ill and alive rather than dead Does a state really nanny us when it uses its power to make us healthier If it does should it stop Some public health policies might reduce inequities of health or save costs in medical treatment or correct market failures But as this book shows lots would not The best case for many public health interventions is paternalistic aiming to steer people away from making unhealthy choices against their own interests But even though it is the best case it often fails It overvalues health and undervalues autonomy It exaggerates the influence of addiction and the marketing of unhealthy products Except for smoking we do not have the evidence needed to show that unhealthy choices are so mistaken as to justify the interventions Much of what modern public health does when it tries to stop adults damaging their health has not been justified *The Ethics of Public Health Paternalism* applies political and moral

philosophy to the ideas of both supporters and critics of public health interventions It uses philosophical analysis of the values of health and well being to explain what sort of evidence is needed to support public health interventions thus exposing a major gap in the arguments of public health advocates and it engages in detail with empirical evidence for instance about smokers regrets

Consumer Rights and Protections Nancy Hendricks, 2025-05-15 How did industrialization drive the development of consumer rights and protections in the USA How have these laws defended consumers against business fraud deceptive advertising industrial pollution and unsafe or unethical practices Why have opinions about the value of consumer rights and the need for business regulation become so politically polarizing Which activists laws events and agencies have had the greatest impact on consumer rights This all in one resource answers these questions and many more providing readers with insights into the past present and possible futures of consumer rights in America The book s opening chapters explore the history and evolution of consumer rights paying particular attention to the laws and arguments upon which those protections were built and hold continued importance Later chapters explore how consumer rights have evolved in specific industries including food and beverage cosmetics health care and pharmaceutical transportation and banking and finance Together this coverage provides a wide ranging resource for understanding the state of consumer protection and business regulation in the 21st century

Nanny State David Harsanyi,2007-09-18 When did we lose our right to be lazy unhealthy and politically incorrect Move over Big Brother An insidious new group has inserted itself into American politics They are the nannies not the stroller pushing set but an invasive band of do gooders who are subtly and steadily stripping us of our liberties robbing us of the inalienable right to make our own decisions and turning America into a nation of children As you read this countless busybodies across the nation are rolling up their sleeves to do the work of straightening out your life Certain Massachusetts towns have banned school yard tag San Francisco has passed laws regulating the amount of water you should use in dog bowls The mayor of New York City has french fries and doughnuts in his sights In some parts of California smoking is prohibited outside The government under pressure from the nanny minority is twisting the public s arm into obedience Playground police food fascists anti porn crusaders whether they re legislating morality or wellbeing nannies are popping up all over America In the name of health safety decency and shudder good intentions these ever vigilant politicians and social activists are dictating what we eat where we smoke what we watch and read and whom we marry Why do bureaucrats think they know what s better for us than we do And are they selectively legislating in the name of political expediency For instance why do we ban mini motorbikes responsible for five deaths each year and not skiing which accounts for fifty deaths each year Why is medical marijuana a substance yet to claim a single life banned and not aspirin which accounts for about 7 600 deaths Exhaustively researched sharply observed and refreshingly lucid Nanny Sate looks at the myriad ways we are turning the United States into a soulless and staid nation eroding not only our personal freedoms but our national character

The War on Smokers and the Rise of the Nanny State Theodore J. King,2009-06 From propaganda released by the Third Reich to legislation passed in more than fifty nations smoking is one of society s favorite targets While the public goes along with persecuting smokers Theodore J King is here to tell us why we shouldn t In this book which does not advocate smoking King surveys smoking bans in the United States England and Ireland documenting their effects on society and commerce King interviews many people including members of the medical community King takes his arguments further showing how and why bans on smoking extend to other areas of our lives how smokers are only the beginning Anti smokers represent an agenda that involves everything from personal property to the way

you raise your children what you eat and your right to freedom of speech Authoritarians have willing accomplices in the press and government to take power at the individual s expense Learn how anti smoking fanatics use tobacco control as an effective form of social engineering King offers solutions so that smokers and non smokers can be accommodated in a free society where it must never be a crime to smoke in a bar in a car in the open air in a restaurant or at home *The*
