Napoleon and His Parliaments, 1800-1815 Irene Collins,1979 **Napoleon: Life, Legacy, and Image: A Biography** Alan Forrest,2012-12-11 A comprehensive account of the life and enduring influence of the early 19th century French emperor covers his rise to prominence the ways his life reflected his time and the lingering impact of his death on national stability *Historical Dictionary of Napoleonic France, 1799-1815* Owen Connelly,1985-05-24 This work contains much information on a colorful period in history It will be welcomed in academic and public libraries Reference Books Bulletin **Napoleon** Clive Emsley,2014-10-24 Napoleon had a profound impact on the development of both France and Europe and his career had repercussions across the wider world His career had all the elements of a classical tragedy having begun with spectacular military and civil achievements it ended in exile on the tiny Atlantic island of St Helena Almost two centuries after Napoleon s death historians continue to argue about his aims his achievements and his legacy In this thoroughly revised and updated new edition Clive Emsley brings these historiographical debates up to date and broadens his study to include discussion of the cultural and social impact of the Napoleonic era This new edition offers a succinct summary of Napoleon s career examines his impact on France and Europe as well as including a new chapter on the impact of the Napoleonic adventure on the wider world considers the relationship between Napoleon and the French Revolution outlines the difficulties in assessing his career explores the current debates surrounding Napoleon contains an expanded selection of primary source documents ranging from state papers to police reports A Chronology Glossary and Who s Who of key characters are also provided making this an indispensable textbook for students of nineteenth century French and European history **Europe Under Napoleon** Michael Broers,2014-11-18 Napoleon Bonaparte dominated the public life of Europe like no other individual before him Not surprisingly the story of the man himself has usually swamped the stories of his subjects This book looks at the history of the Napoleonic Empire from an entirely new perspective that of the ruled rather than the ruler Michael Broers concentrates on the experience of the people of Europe particularly the vast majority of Napoleon s subjects who were neither French nor willing participants in the great events of the period during the dynamic but short lived career of Napoleon when half the European continent fell under his rule In a new edition of a highly acclaimed book Broers weaves together a myriad of regional experiences to produce a social history of the Napoleonic Empire with a truly panoramic scope **Napoleon** Geoffrey Ellis,2014-06-06 This invaluable account provides an excellent introduction to the nature and mechanics of Napoleon s power and how he used it It explores Napoleon s rise to fame as a soldier of the French Revolution and his aims and achievements as first consul and emperor during the years 1799 1815 **The Wars of Napoleon** Charles J Esdaile,2019-02-18 First published in 1995 to great critical acclaim The Wars of Napoleon provides students with a comprehensive survey of the Napoleonic Wars around the central theme of the scale of French military power and its impact on other European states from Portugal to Russia and from Scandinavia to Sicily The book introduces the

reader to the rise of Napoleon and the wider diplomatic and political context before analysing such subjects as how France came to dominate Europe the impact of French conquest and the spread of French ideas the response of European powers the experience of the conflicts of 1799 1815 on such areas of the world as the West Indies India and South America the reasons why Napoleon's triumph proved ephemeral and the long term impact of the period This second edition has been revised throughout to include a completely re-written section on collaboration and resistance a new chapter on the impact of the Napoleonic Wars in the wider world and material on the various ways in which women became involved in or were affected by the conflict Thoroughly updated and offering students a view of the subject that challenges many preconceived ideas The Wars of Napoleon remains an essential resource for all students of the French Revolutionary Wars as well as students of European and military history during this period
