Outlines of European History: From the seventeenth century to the present time James Harvey Robinson,James Henry Breasted,Charles Austin Beard,1919 *Napoleon and America* Edward Lewis Andrews,2015-07-02 Excerpt from Napoleon and America An Outline of the Relations of the United States to the Career and Downfall of Napoleon Bonaparte It requires some temerity to add to the volume of Napoleonic narrative But palliation may be pleaded in recent discoveries of Napoleon s own writings For the first time the world has been enabled to take a comprehensive survey of his mental development from its initial stages to its stratified judgments The psychology of the most practical of men may now be explored It introduces us to the struggle of his idealities to their dissolution before the realities of life or their permeation of those realities Historians must now realize that Napoleon was a reader thinker and writer before he became a man of action From this origin they may develop fresher and truer theories of his epoch Athwart the multitudinous phases of his career they may perceive when his conceptions dominated the situation or were moulded by its exigencies About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
