Narrative Complexity in Christopher Nolan's "Memento". Narrative Structure, Unreliability, Fabula Construction and Cinematography as Key Elements for the Spectator's Manipulation Claudia Rumms, 2015-10-16

Seminar paper from the year 2015 in the subject Film Science grade 1 3 University of Münster language English abstract In my term paper I will examine the narrative structure in Memento which switches between chronological narration and reversed temporality With respect to this unique narrative structure I will take a closer look at the black and white and colour sequences the opening sequence and the outstanding and resolvent scene 22 A especially regarding the cinematography used In the further course of my work you will learn of the essential role of the unreliable narrator regarding my thesis and finally what impact the fabula construction in Memento has on his viewers Causes and their effects are basic to narrative but they take place in time This quotation from Bordwell's and Thompson's work Film Art an Introduction does not

only show a fundamental principle of narration but furthermore depicts a possibility to manipulate the spectator's understanding of a story Christopher Nolan's *Memento* is one example of what a complex narration can be The film shows two separate stories of Leonard an ex insurance investigator who suffers anterograde amnesia and attempts to find the murderer of his wife which is the last thing he can remember On the one hand there is a forward moving storyline the black and white scenes while the other one the colour sequences tells the story backwards Although the story behind the film is rather simple the narrative structure is extremely complex and clever which demands constant attention from its spectators This term paper will deal with the methods used in *Memento* which mislead the audience's understanding of the story My thesis is therefore Narrative complexity in Christopher Nolan's *Memento* Narrative structure Narrator's unreliability fabula construction and cinematography as key elements for the spectator's manipulation Apart from the film *Memento* the central literature I will work with is the essay by Stefano Ghislotti Narrative Comprehension Made Difficult Film Form and Mnemonic Devices in *Memento* the documentary *Anatomy of a Scene* about the making of *Memento* a text by Andy Klein named *Everything You Wanted to Know about Memento* and different filmic narrativity by Jakob Lothe David Herman and Edward Branigan In addition to that there is a self generated sequence analysis attached to the term paper in order to have an overall view of the scenes I take a closer look at The Discipline of History and the History of Thought M.C.

Lemon, 2002-06-01 Although much has been written of the nature of history and its disciplinary problems less attention has been paid to the history of thought M C Lemon's rigorously philosophical work first re asserts the discipline of history in general as narrative based before pursuing the methodological implications for the history of thought This original work of scholarship will raise the level of argument in philosophy of history and provoke debate among historians philosophers and political theorists *Annotated Forms of Federal Procedure* Frank Olds Loveland, 1922 *Encyclopedia of Forms and*
