Narrative Prosthesis Disability And The Dependencies Of Discourse:

Narrative Prosthesis David T. Mitchell, Sharon L. Snyder, 2014-05-21 *Narrative Prosthesis* Disability and the Dependencies of Discourse develops a narrative theory of the pervasive use of disability as a device of characterization in literature and film. It argues that while other marginalized identities have suffered cultural exclusion due to a dearth of images reflecting their experience, the marginality of disabled people has occurred in the midst of the perpetual circulation of images of disability in print and visual media. The manuscript's six chapters offer comparative readings of key texts in the history of disability representation, including the tin soldier and lame Oedipus, Montaigne's infinities of forms and Nietzsche's higher men, the performance history of Shakespeare's Richard III, Melville's Captain Ahab, the small town grotesques of Sherwood Anderson's *Winesburg, Ohio*, and Katherine Dunn's self-induced freaks in *Geek Love*. David T. Mitchell is Associate Professor of Literature and Cultural Studies, Northern Michigan University. Sharon L. Snyder is Assistant Professor of Film and Literature, Northern Michigan University.

Discourses on Disability Anju Sosan George, 2023-03-31 *Discourses on Disability* bridges academic and personal voices from India to address the diverse and fluid conversations on disability. It seeks to critically engage with the concept of being disabled, attempting to deconstruct ableism while advocating for inclusive politics. Narratives from people with bipolar disorder, autism, and locomotor disabilities serve to examine how it feels to exist in a world conditioned by deep-seated cultural taboos about disability. The chapters in this book show how India still has a systemic silence about people with disabilities.

Disability in the Middle Ages Joshua R. Eyler, 2016-05-23 What do we mean when we talk about disability in the Middle Ages? This volume brings together dynamic scholars working on the subject in medieval literature and history who use the latest approaches from the field to address this central question. Contributors discuss such standard medieval texts as the Arthurian Legend, *The Canterbury Tales*, and Old Norse Sagas, providing an accessible entry point to the field of medieval disability studies to medievalists. The essays explore a wide variety of disabilities, including the more traditionally accepted classifications of blindness and deafness, as well as perceived disabilities such as madness, pregnancy, and age. Adopting a ground-breaking new approach to the study of disability in the medieval period, this provocative book will interest medievalists and scholars of disability throughout history.

The Cambridge Companion to Literature and Disability Clare Barker, Stuart Murray, 2018 Working across time periods and critical contexts, this volume provides the most comprehensive overview of literary representations of disability.

Narrative Prosthesis David T. Mitchell, Sharon L. Snyder, 2000 Reveals how depictions of disability in fiction serve an essential narrative function.

Dangerous Discourses of Disability, Subjectivity and Sexuality Margrit Shildrick, 2009-08-28 This book examines disability in the context of two areas subjectivity and sexuality in which it has been hitherto suppressed Using feminist and postmodernist analysis Margrit Shildrick explores what motivates the discrimination devaluation and alienation directed at disabled people and argues that the difference that disability encapsulates uncovers a psycho-cultural imaginary that sustains modernist understandings of what constitutes an embodied subject Where autonomy is the most valued attribute of subjectivity any compromise of bodily control indication of connectivity or of corporeal instability mobilizes a deep-seated anxiety in the normative majority that is most acute in relation to disability and sexuality By critiquing conventional paradigms this study shows how it becomes possible to celebrate the fluidity unpredictability and connectivity already associated with disability and creatively queer understanding of the embodied self Using an analysis that draws on critical cultural theory emergent strands in critical disability studies postconventional philosophy and feminist theories of the body from Merleau-Ponty to Haraway and Deleuze and social policy and legal discourse Shildrick argues for the need to contextualise disability as a matter of ethical import
