Formation and Third Party

Beneficiaries Mindy Chen-Wishart, Alexander Loke, Stefan Vogenauer, 2018-01-19 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions including the major centres of commerce where limited critical commentaries have been published in the English language. Each volume in the series aims to offer an insider's perspective into specific areas of contract law: remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality and public policy, and explores how these diverse jurisdictions address common problems encountered in contractual disputes. A concluding chapter draws out the convergences and divergences and other themes. All the Asian jurisdictions examined have inherited or adopted the common law or civil law models of European legal systems. Scholars of legal transplant will find a mine of information on how received law has developed after the initial adaptation and transplant process including the mechanisms of and influences affecting these developments. At the same time many points of convergence emerge. These provide good starting points for regional harmonization projects. Volume II of this series deals with contract formation and contracts for the benefit of third parties in the laws of China, India, Japan, Korea, Taiwan, Singapore, Malaysia, Hong Kong, Korea, Vietnam, Cambodia, Thailand, Indonesia and Myanmar. Typically each jurisdiction is covered in two chapters: the first deals with contract formation while the second deals with contracts for the benefit of third parties.

Contract Law in Singapore Andrew B.L. Phang, Goh Yihan, 2021-10-21 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the law of contracts in Singapore covers every aspect of the subject: definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non performance, damages, power of attorney and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application and procedure from one legal system to another as well as the international aspects of contract law. Throughout the book the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi contracts and property is followed by a discussion of the concepts of consideration or cause and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of relative effect, termination of contract and remedies for non performance. The second part of the book recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it describes the nature of agency, sale, lease, building contracts and
