

# Windsor Tie Knot

Start with the wide end ("W") of your tie on the right, extending about 1-4 inches before the narrow end ("N") on the left. Then cross the wide end over the narrow end.

Bring the wide end up through the loop between the collar and your tie.

Then bring the wide end back down.

Pull the wide end underneath the narrow end and to the right. The back side of the tie's wide end should be visible.

Pull the wide end through the loop between tie and your neck.

Pull down the wide end to tighten the knot. Then take the wide end and wrap over the narrow end so that the front of the wider end is visible again.

Then pull the wide end up through the loop again.

Bring the wide end down through the knot in front.

And using both hands tighten the knot carefully and draw it up to the collar.
