Racial Myths

and Masculinity in African American Literature Jeffrey B. Leak, 2005 The portrayal of black men in our national literature is controversial complex and often contradictory In *Racial Myths and Masculinity in African American Literature* Jeffrey B Leak identifies some of the long held myths and stereotypes that persist in the work of black writers from the nineteenth century to the present intellectual inferiority criminality sexual prowess homosexual emasculation and cultural deprivation Utilizing Robert B Stepto's call and response theory Leak studies four pairs of novels within the context of certain myths identifying the literary tandems between them and seeking to discover the source of our culture's psychological preoccupation with black men Calling upon interdisciplinary fields of study literary theory psychoanalysis gender studies legal theory and queer theory Leak offers groundbreaking analysis of both canonical texts representing the call of the call and response dyad and texts by emerging writers representing the response including Frederick Douglass and Charles Johnson Ralph Ellison and Brent Wade Richard Wright and Ernest J Gaines and Toni Morrison and David Bradley Though Leak does not claim that the response texts are superior to the call texts he does argue that in some cases the newer work such as Charles Johnson's *Oxherding Tale* can address a theme or offer a narrative innovation not found in preceding texts such as *Narrative of the Life of Frederick Douglass* In these instances argues Leak the newer texts constitute not only a response to the call text but a substantial revision Leak offers the first in depth criticism of black masculinity in a range of literary texts In a final chapter he expands his discussion to the emerging field of black masculinity studies pointing to future directions for

study including memoir film drama and others Poised on the brink of exciting new trends in scholarship Racial Myths and Masculinity in African American Literature is a flagship work enhancing the understanding of literary constructions of black masculinity and the larger cultural imperatives to which these writers are reacting *Charles Johnson's Spiritual Imagination* Jonathan Little, 1997 In this first book length study of Charles Johnson's work Jonathan Little offers an engaging account of the artistic growth of one of the most important contemporary African American writers From his beginnings as a political cartoonist through his receipt of the National Book Award for *Middle Passage* Johnson's imagination has become increasingly spiritual Little draws upon a wide array of sources including short stories interviews reviews articles and cartoons as he traces the brilliant achievement of this provocative artist who is very much at the height of his career Charles Johnson's *Spiritual Imagination* begins with an analysis of Johnson's political cartoons from the late sixties and early seventies when he was immersed in the Black Power Movement Little shows that in these early cartoons one can already see Johnson's comic genius and his quest for unconstrained artistic freedom even when dealing with the highly charged issues of racial politics By examining how Johnson incorporates the influences of phenomenology Zen Buddhism Taoism Hinduism and Romanticism into a strikingly original perspective on individual and social identity Little chronicles Johnson's development The book illuminates the progression of Johnson's aesthetics as he deals with the at times disturbing contrast between the hope offered by art and spirituality and the harsh realities of African American existence As he situates Johnson within the tradition of African American literature Little pairs each of his novels with a major precursor including novels by Richard Wright and Ralph Ellison and such far ranging sources as Hermann Hesse's *Siddhartha* and the *Ten Oxherding Pictures* These comparisons help to show Johnson's innovations within the African American literary tradition and include discussions of naturalism realism and modernism This book will appeal to anyone interested in African American literature spirituality aesthetics and the culture wars *Charles Johnson's Novels* Rudolph P. Byrd, 2005-06-13 This is truly a major contribution to African American literary criticism and it promises to elevate Johnson to the place in the literary firmament he so richly deserves Henry Louis Gates Jr Harvard University Charles Johnson came of age during the Black Arts Movement of the 1960s and 1970s His fiction bears the imprint of his formal training as a philosopher and his work as a journalist and cartoonist with a well honed interest in political satire Mentored by the American writer John Gardner Johnson is preoccupied with questions of morality which are informed by his knowledge of Continental and Asian philosophical traditions In this book Rudolph Byrd examines Johnson's four novels *Faith* and the *Good Thing* *Oxherding Tale* *Middle Passage* National Book Award Winner and *Dreamer* under the rubric of philosophical black fiction as art that interrogates experience Byrd contends that Johnson suspends shelves and brackets all presuppositions regarding African American life This bracketing accomplished the African American experience becomes a pure field of appearances within two poles consciousness and the people or phenomena to which it is related Johnson's principal themes are identity and liberation Intent upon the liberation of

perception for the reader and the writer Johnson's fiction aims at whole sight encompassing a plurality of meanings across a symbolic geography of forms texts and traditions from within the matrix of African American life and culture. And like a palimpsest Johnson's texts contain multiple layers of meaning of disparate origins imprinted over time with varying degrees of visibility and significance. Charles Johnson's Novels will appeal to fans of the writer's work but it also will serve as a helpful guide for readers newly introduced to this brilliant contemporary American writer

I Call Myself an Artist Charles Johnson, 1999. This work reaches across the colour line to examine how race gender class and individual subjectivity shaped the lives of black and white women in the 19th and 20th century American South

A Partial Enlightenment Avram Alpert, 2021-04-06. In many ways Buddhism has become the global religion of the modern world. For its contemporary followers the ideal of enlightenment promises inner peace and worldly harmony. And whereas other philosophies feel abstract and disembodied Buddhism offers meditation as a means to realize this ideal. If we could all be as enlightened as Buddhists some imagine we could live in a much better world. For some time now however this beatific image of Buddhism has been under attack. Scholars and practitioners have criticized it as a Western fantasy that has nothing to do with the actual experiences of Buddhists. Avram Alpert combines personal experience and readings of modern novels to offer another way to understand modern Buddhism. He argues that it represents a rich resource not for attaining perfection but rather for finding meaning and purpose in a chaotic world. Finding unexpected affinities across world literature Rudyard Kipling in colonial India Yukio Mishima in postwar Japan Bessie Head escaping apartheid South Africa as well as in his own experiences living with Tibetan exiles Alpert shows how these stories illuminate a world in which suffering is inevitable and total enlightenment is impossible. Yet they also give us access to partial enlightenments powerful insights that become available when we come to terms with imperfection and stop looking for wholeness. *A Partial Enlightenment* reveals the moments of personal and social transformation that the inventions of modern Buddhism help make possible
