Anton Webern Darin Hoskisson, 2017-03-27 Anton Webern A Research and Information Guide offers carefully selected and annotated sources regarding Webern from 1975 to present day including sources on Webern's life his music and the interpretation and reception of his music Along with this comprehensive annotated listing of print and online sources the book discusses the history of research on Webern and includes a brief chronology of his life It is a major reference tool for those interested in Webern and his music and valuable for researchers of 20th century music and the Second Viennese School **Programs** Minneapolis Symphony Orchestra, 1962 The Craft of Tonal Counterpoint Thomas Benjamin, 2004-03 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company *Some Aspects of Counterpoint in Selected Works of Arnold Schoenberg* Boris Pillin, 1970 **Catalog of Copyright Entries** Library of Congress. Copyright Office, 1949 **Journal of the American Musicological Society** American Musicological Society, 1980 Joycean Legacies Martha C. Carpentier, 2015-04-28 These twelve essays analyze the complex pleasures and problems of engaging with James Joyce for subsequent writers discussing Joyce's textual stylistic formal generic and biographical influence on an intriguing selection of Irish British American and postcolonial writers from the 1940s to the twenty first century Listening in Eric Prieto, 2002-01-01 What can music teach a novelist autobiographer or playwright about the art of telling stories The musical play of forms and sounds seems initially to have little to do with the representational function of the traditional narrative genres Yet throughout the modernist era music has been invoked as a model for narrative in its specifically mimetic dimension Although modernist writers may conceive of musical communication in widely divergent ways they have tended to agree on one crucial point that music can help transform narrative into a medium better adapted to the representation of consciousness Eric Prieto studies the twentieth century evolution of this use of music with particular emphasis on the postwar Parisian avant garde For such writers as Samuel Beckett Michel Leiris and Robert Pinget music provides a number of guiding metaphors for the inwardly directed mode of mimesis that Prieto calls listening in where the object of representation is not the outside world but the subtly modulating relations between consciousness and world This kind of semiotic boundary crossing between music and literature is inherently metaphorical but as Prieto's analyses of Beckett Leiris and Pinget show these interart analogies provide valuable clues for bringing to light the unspoken assumptions obscurely understood principles and extra literary aspirations that gave such urgency to the modernist quest to better represent the mind in action **Songs** Louise Reichardt, 1980 Besetzung Gesang Klavier **Music**, 1975 *What We Hear in Music* Anne Shaw Faulkner Oberndorfer, Anne Shaw Faulkner, 1929 For other editions see Author Catalog What We Hear in Music, 1928 **The Long Player**, 1958-04 **A Guide to Organ Music** Viktor Lukas, 1989 This selective critical survey of organ literature from Hofhaimer and Paumann to the present day is a useful guide both for the organist seeking repertoire and for the listener looking for brief analyses of organ works encountered in recitals or on record It has been a standard

work in Germany for more than a generation appearing in five editions It is now translated into English for the first time Organists in the English speaking countries will find the author s continental perspective of particular interest as he treats fully many significant composers Hermann Grabner Willy Burkhard G nter Raphael and Joseph Ahrens are only a few examples whose works are frequently performed in Germany yet remain almost unknown in America and England This guide may therefore suggest a largely unexplored realm of music written for the classically oriented instrument that awaits the adventurous organist The chronological survey of composers treats all of the standard repertoire by familiar composers and includes as well some works by composers too little known Johann Ernst Eberlin and Bohuslav Cernohorsky in the 18th century and Gustav Merkel in the 19th are examples This edition includes addenda on British and American organ music by the well known American organist Lee Garrett expanding the scope of Lukas s work Musical examples show principal themes of selected works and publishers are listed for each composer Dust jacket The NATS Bulletin National Association of Teachers of Singing (U.S.),1966 Music Library of Congress.
