J. Garner,2018-03-03 If you are a slow reader you are probably compromising with your learning as well focusing abilities Reading is directly connected to your state of your mind and your senses Slowness will not only deter you comprehension and concentration but also affect your productivity and efficiency You will struggle with your studies if you are a student you will be labeled inefficient if your work involves browsing through reports articles and data and you will be wasting precious time in your day if your love to consume content as a hobby But it can be easily overcome by adopting simple and effective speed reading techniques This book is a comprehensive guide to read and learn fast Speed reading is not only about reading at a faster pace but also exercising your brain and senses to better your comprehension memorization and intellectual capacities You will learn the basic and advanced techniques to master reading at a breakneck pace A Comprehensive Guide to Effective Speed Reading Techniques You will learn step by step process to develop your skill and also keep how to keep track of your progress Reading is useless without the ability to recall what you read This book stresses on speed reading as a rewarding experience with the ability to comprehend and remember the information instantly and significantly Speed Reading How to read better and faster includes The basics of speed reading Speed reading techniques Simple and Advanced How to calculate your reading speed and track your progress Mastering Speed Reading How to develop a new habit skills and the art of memorizing And much more When you finish Speed Reading How to Read Better and Faster I am sure you will dramatically increase your ability to read faster You will find yourself using your brain and senses even more efficiently This is why learning to speed read is a great skill to have to help further your knowledge and even your career So what are you waiting for Get Your Copy Now **Speed Reading Made Easy: a Guide to Speed Reading** Darren Wallace,2012-10-25 Have you ever wondered about speed reading and how exactly it is done If you have this is the best place to get the information that you need to get a start There is great flow as the book starts out with more than a working definition of the topic and then goes into how you can actually get it done There is even an entire chapter dedicated to the research that has been done and the results of these scientific tests negative or positive The book is filled with pertinent information that directly relates to the topic at hand with no unnecessary fillers to take up space It really does serve as a great guide for those that are looking to even try out the process of speed reading and to get a basic grasp of some of the techniques before they go on to refine the process and become professionals The presentation of all aspects of speed reading is appreciated so the reader gets an entire picture of the good and bad aspects of it and can make an informed decision from what they have read It is highly recommended as it is not just based on the notions of the author but is based on research **Speed Reading Mastery** Kaspar Schäfer,2020-07-02 How to double or even triple your reading speed with comprehension regardless of reading level Reading is a tough activity for many people to reach their full potential In fact people tend not to reach their full potential in reading

primarily because it is tough It is tough to read at a pace where reading enough can work with your schedule It is tough to read large amounts of information while ensuring comprehension is achieved I understand how tough it is because I remember being laughed at by my classmates in the third grade for being a slow reader and far behind in reading assignments It felt humiliating my parents often told me I was smart and that they were proud of me for doing my best but I still didn t feel this was true And this problem had plagued my academic life until the middle of college It was one of the reasons why I couldn t perform well in school and constantly failed classes being held back in certain cases where I would dream of being a high school dropout It was until my sophomore year of college where I took my future seriously and decided something HAS to change I studied how to learn and train my mind to be a better machine at retaining and synthesizing information and in the process I learned what speed reading was After 2 years of work I was ON FIRE with everything I learned about brain training and reading Learning felt like a breeze all of a sudden but reading was an area with the most visible concrete improvement because by then I tripled my reading speed without sacrificing comprehension and even improving it It was like I found a gold mine within my head that I didn t reach before learning speed reading everything clicked And it could click for YOU too I began coaching people who had similar stories I had it gave me the inspiration to work harder so nobody will have to be in that hole of giving up reading completely And the track record for the people I ve coached shows I built a great program that anyone can take on including you In Speed Reading Mastery you ll discover Simple yet efficient speed reading techniques that will double or even triple your reading speed in 7 steps How school has taught you the INCORRECT way to read Your current reading speed and building the best environment to improve it How to see like a better reader Experimental reading tactics that can improve reading speeds in less than 10 minutes The framework to comprehend better than the majority even while speed reading The miracle tool you can use anywhere to improve speed reading And so much more People tend to take on speed reading by themselves without a plan to efficiently guide them to become better readers while speed reading And this often leads to nowhere for them because they aren t using all the right techniques and methods in ways that will work With Speed Reading Mastery you have access to the same program that has been tried tested on people from a wide range of ages and mental capacities You can read at incredible speeds of 400 WPM even if your current reading speed may be 150 WPM You can skim your way through books and be confident you comprehended just as well or even better than the person that hasn t speed read through the same book You can learn to speed read no matter your age But that is if you use the right strategy to teach you speed reading and Speed Reading Mastery is the right strategy you can implement So if you want to read at speeds you did not think were possible for you then scroll up to the top of the page click the buy now with the 2 click button to get your book instantly [Speed Reading: Comprehensive Beginners Guide to Learn the Simple and Effective Methods of Speed Reading](#) Robert Thomson, 2019-03-27 Reading is an important part of our lives Whether you have read articles books magazines or any other text for school work
