Self-Help in Mental Health T. Mark Harwood, Luciano L'Abate, 2009-11-24

Self help is big business but alas not a scientific business. The estimated 10 billion that is spent each year on self help in the United States is rarely guided by research or monitored by mental health professionals. Instead marketing and metaphysics triumph. The more outrageous the miraculous cure and the revolutionary secret the better the sales. Of the 3 000 plus self help books published each year only a dozen contain controlled research documenting their effectiveness as stand alone self help. Of the 20 000 plus psychological and relationship web sites available on the Internet only a couple hundred meet professional standards for accuracy and balance. Most in fact sell a commercial product. Pity the layperson or for that matter the practitioner trying to navigate the self help morass. We are bombarded with thousands of potential resources and contradictory advice. Should we seek wisdom in a self help book, an online site, a 12 step group, an engaging autobiography, a treatment manual, an inspiring movie or distance writing? Should we just do it or just say no? Work toward change or accept what is? Love your inner child or grow out of your Peter Pan? I become confused and discouraged just contemplating the choices.

Mastery of Your Anxiety and Panic David H.

Barlow, Michelle G. Craske, 2006-12-14

Do you have rushes of fear accompanied by a pounding heart, trembling, dizziness and feelings of unreality that make you think you're sick, dying or losing your mind? Do these feelings interfere with your normal daily routine or prevent you from doing things you would normally do? If you are prone to panic attacks and constantly worry about when the next attack may come, you may suffer from panic disorder and/or agoraphobia. Though panic disorder seems irrational and uncontrollable, it has been proven that a treatment like the one outlined in this book can help you take control of your life. Now in its 4th edition, *Mastery of Your Anxiety and Panic Workbook* has been updated to include strategies and

techniques for dealing with both panic disorder and agoraphobia. The program outlined is based on the principles of cognitive behavioral therapy CBT and is organized by skill with each chapter building on the one before it. You will learn the importance of record keeping and monitoring your progress as well as breathing techniques and thinking skills. The main focus of treatment involves learning how to face agoraphobic situations and the scary physical symptoms of panic from an entirely new perspective. Self assessment quizzes, homework exercises and interactive forms allow you to become an active participant in your treatment. Over time you will learn to manage your panic attacks, anxiety about panic and avoidance of panic and agoraphobic situations. This workbook is a one of a kind resource that has been recommended for use by public health services around the world. It allows you to work alongside your therapist to personalize your treatment strategy and learn recovery skills that are useful for a lifetime. *TreatmentsThatWork* represents the gold standard of behavioral healthcare interventions. All programs have been rigorously tested in clinical trials and are backed by years of research. A prestigious scientific advisory board led by series Editor In Chief David H.
